FOR IMMEDIATE RELEASE: January 21, 2026

Cook County TIFs to generate over \$2 Billion in Revenue

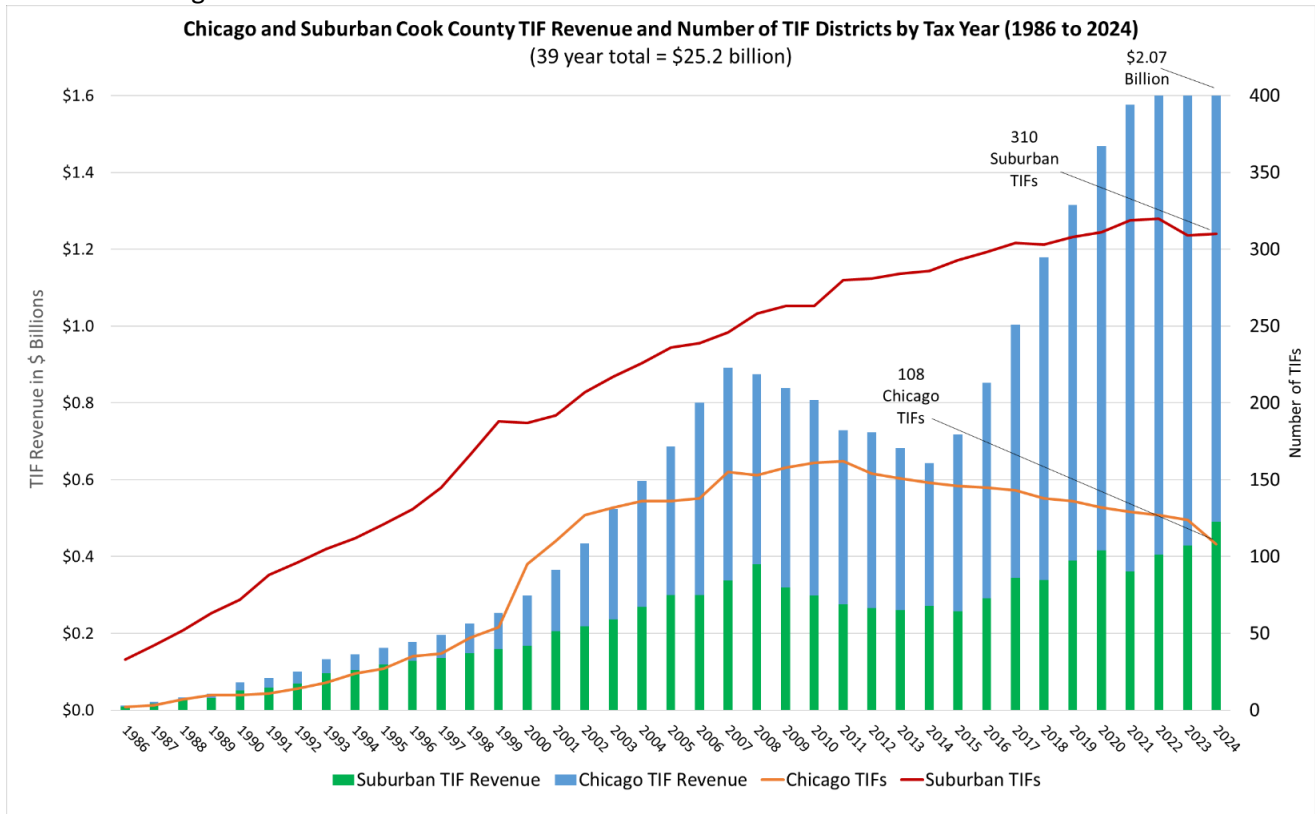

TIF revenue up 16% this year

Tax Increment Financing (TIF) districts in Cook County will bring in over \$2 billion for tax year 2024, according to a report released Wednesday by the Office of Clerk Monica Gordon.

The revenues from TIFs continue to climb in Cook County, with the total increasing 16.07 % to over \$2 billion for tax year 2024, compared to the total of nearly \$1.8 billion for tax year 2023, according to the report. In the City of Chicago, which was reassessed for tax year 2024, TIF revenues increased 16.6%. TIFs in suburban Cook County increased 14.5%.

“Providing the public with accurate, accessible information is a core responsibility of the Clerk’s Office,” said Clerk Gordon. “This report breaks down complex financial data in a way that helps residents better understand how TIF funds are collected and distributed throughout Cook County.”

“TIF districts can have a significant and lasting impact on local taxpayers,” Clerk Gordon said. “By making this information publicly available, we are empowering residents to take a closer look at how these revenues are growing and how local governments are using them.”

Tax Increment Financing is intended to provide funding for the redevelopment of certain areas that are designated under state law as blighted by using a portion of local property tax revenue. The graph below indicates TIF revenue and the number of TIFs in Chicago and the suburban communities of Cook County for the past 39 years.

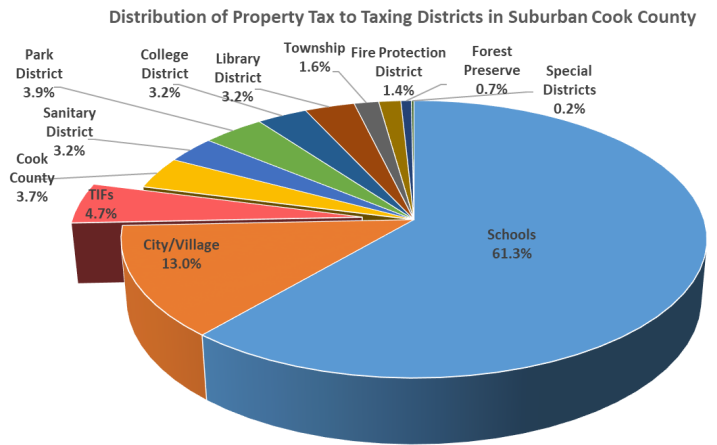

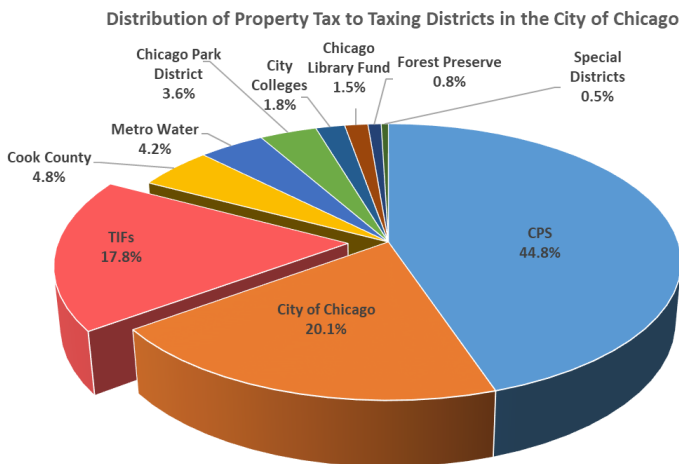

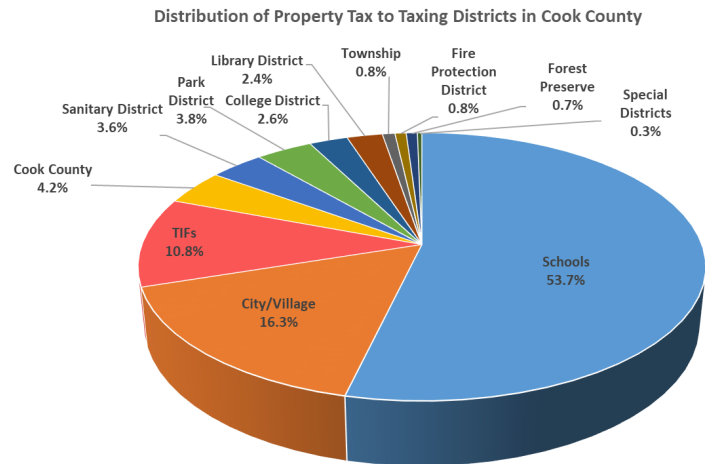

The primary driver of TIF revenue increases this year is the triennial reassessment of the City of Chicago, where 76.38% of TIF revenue in Cook County is generated. Another contributing factor to TIF revenue increases this year is the implementation of the County’s new Property Tax System, which calculates TIF revenue on a property-by-property basis, as is done in other Illinois counties.

TIFs account for 10.8% of property taxes billed in Cook County

Over \$2 billion derived from TIFs in Cook County amounts to 10.8% of the total \$19.2 billion in property taxes billed to Cook County taxpayers this year.

In the City of Chicago (lower-left chart below), TIFs account for 17.8% of the total tax billed for all taxing districts in the City.

TIFs account for 4.7% of the total tax billed for all taxing districts in the suburbs this year (lower- right chart below).

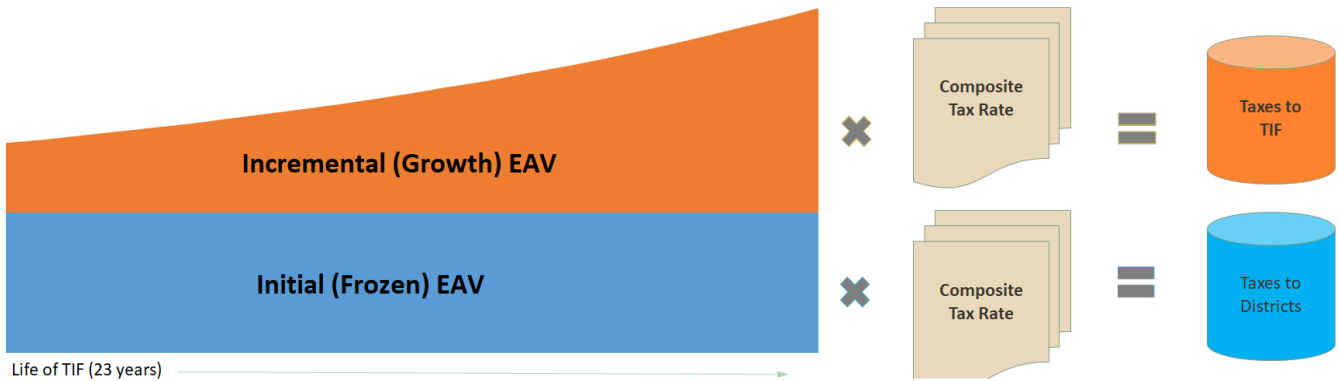

The Clerk’s role in TIF tabulation

The process of calculating property taxes begins every year with municipalities and other taxing districts approving their annual property tax levies and submitting them to the County Clerk. The Clerk’s Office calculates a tax rate for each district. That rate is applied to all properties within that district to generate the respective tax bills.

However, TIFs work differently. TIF revenue is not included in a municipality’s annual property tax levy. Pursuant to statute, TIFs follow a separate approval process. Once a TIF is approved and an ordinance is passed, the municipality submits that documentation to the County Clerk’s Office. The Clerk applies the initial EAV within the TIF as of the date the TIF was adopted. This initial EAV, or base value, is then “frozen” for the life of the TIF (typically 23 years). Each subsequent year, if there is any growth in property values reflected in an increase in EAV (Incremental EAV), that value growth is multiplied by the composite tax rate of the properties inside the TIF to calculate the TIF incremental revenue. The property taxes generated by this increase in

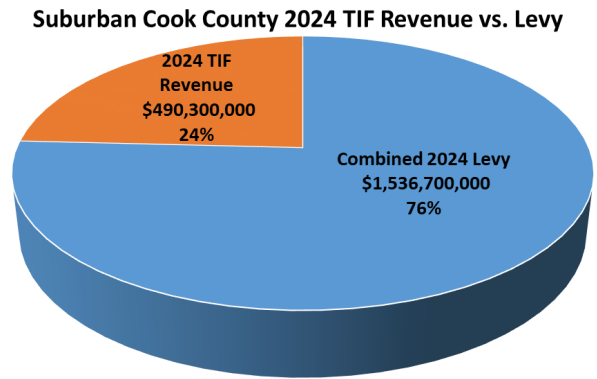

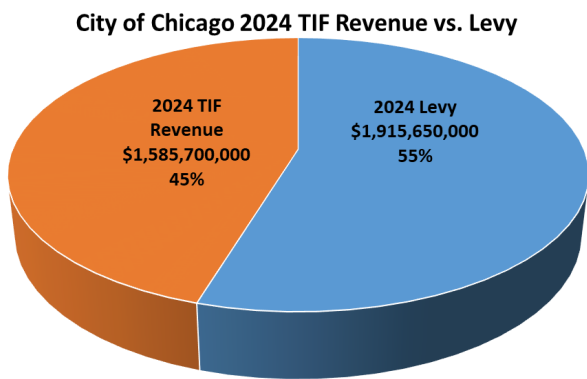

property value is distributed to the TIF. Whereas the property taxes generated by the value of the Frozen EAV are directed to the other taxing districts. See the following chart for an illustration of this process.

Once a TIF ordinance is adopted by the TIF district, the TIF district will continue to receive TIF revenue for the duration of the TIF without requiring a yearly levy or further documentation. The revenue generated by a TIF district will continue to be calculated in the manner shown above, unless the Clerk’s Office is provided written direction from a municipality to terminate the TIF or alter the boundary of a TIF.

Breakdown of taxes billed by TIF revenue and Tax Levy revenue

As illustrated by the charts below, Chicago TIF revenue, when added to the property tax generated by the City’s 2024 property tax levy, is 45% of the total tax to be collected by the City of Chicago. The combined total of all suburban TIF revenue accounts for approximately 24% of the property tax revenue to be collected by suburban municipalities¹.

City of Chicago TIFs

There are currently 418 active TIF districts in Cook County, with 108 TIFs in the City of Chicago and 310 TIFs in the suburbs. Despite there being twice as many TIFs in the suburbs than in the City of Chicago, far more TIF revenue is generated by Chicago TIFs than by suburban TIFs. Chicago TIFs account for 76% of the total TIF revenue in Cook County, while the other 24% of TIF revenue is generated by TIFs in 98 other cities and villages.

No new TIFs were created in the City this year, and 16 Chicago TIFs were closed. The total Chicago TIF revenue increased 16.6% from \$1.36 billion last year to \$1.59 billion this year.

Ten TIFs in the City of Chicago generated over \$35 million each this year. These TIFs are located primarily in or around the downtown area, with the exception of the Pilsen TIF and Red Line Expansion (RLE) Transit TIF, which lie on the south side of the City, and the Red Purple Modernization Phase 1 (RPM1) Transit TIF, which is in the north side

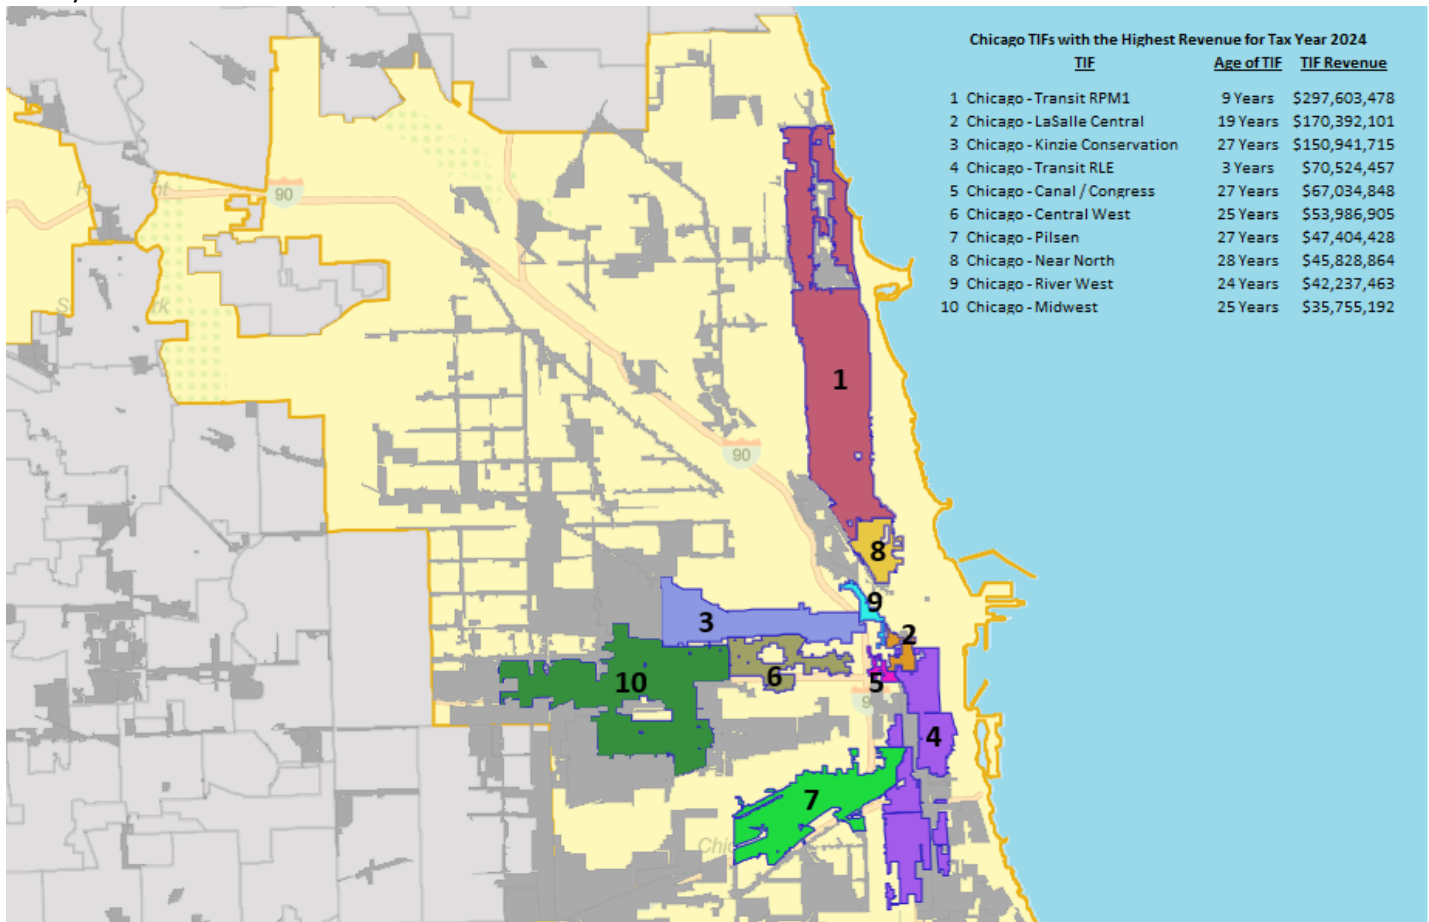

¹ Suburban TIF total as compared to total property tax extension for all suburban cities, towns, and villages, with or without TIF

neighborhood of Lakeview. The RPM1 Transit TIF is the largest TIF geographically and is also the largest TIF financially for 2024. More information on transit TIFs may be found later in this report.

The following table shows the 10 highest revenue-generating TIFs in the City of Chicago for 2024. Each TIF will bring in more than \$35 million this year.

TIF NAME	First Year	2024 TIF Revenue	Total TIF Revenue
Chicago - Transit RPM1	2016	297,603,478	1,316,391,299
Chicago - LaSalle Central	2006	170,392,101	1,333,599,032
Chicago - Kinzie Conservation (Industrial Area)	1998	150,941,715	1,037,426,403
Chicago - Transit RLE	2022	70,524,457	88,164,398
Chicago - Canal / Congress	1998	67,034,848	677,460,091
Chicago - Central West	2000	53,986,905	496,382,069
Chicago - Pilsen	1998	47,404,428	387,946,244
Chicago - Near North	1997	45,828,864	577,983,519
Chicago - River West	2001	42,237,463	435,299,492
Chicago - Midwest	2000	35,755,192	365,412,831

The following map shows the location of these TIFs, which account for 61.2% (\$982 million) of the City’s total TIF revenue this year.

The Red-Purple Modernization Phase 1 Project (RPM1) Transit TIF is a mile wide and extends from North Avenue to Devon Avenue along CTA’s Red and Purple line tracks. This TIF was created to fund transit improvements along CTA rail

lines on the north side of the City and to repay federal loans.

Now in its ninth year, taxable values within the TIF have increased 76% overall since its creation in 2016. Revenue generated by the City’s first Transit TIF generated nearly \$300 million this year, a 47% increase compared to last year, when it generated \$202 million.

The City’s second Transit TIF, on the south side of the City, generated approximately \$70.5 million in this, its third year. This is more than four times the \$12.1 million generated by this TIF last year. Taxable values within this TIF have increased 14.7% since its creation in 2022.

Due to the unique distribution rules established by the Illinois State Statute (65 ILCS 5/11-74.4-8), the Transit TIFs themselves will net approximately \$108.8 million and \$25.7 million, respectively of the total \$368 million generated by Transit TIFs this year.

The balance of the revenue brought in by these TIFs will be distributed to CPS and the other taxing districts, such as the County, the Forest Preserve, Metropolitan Water Reclamation, Chicago Parks, City Colleges, and the City of Chicago. This Transit TIF revenue is in addition to the annual tax levies submitted by these taxing districts.

Suburban TIFs

There are currently 310 active TIFs in 98 suburban municipalities. Suburban TIFs account for 74.2% of the total number of TIFs in Cook County but generate only 23.6% of the total TIF revenue.

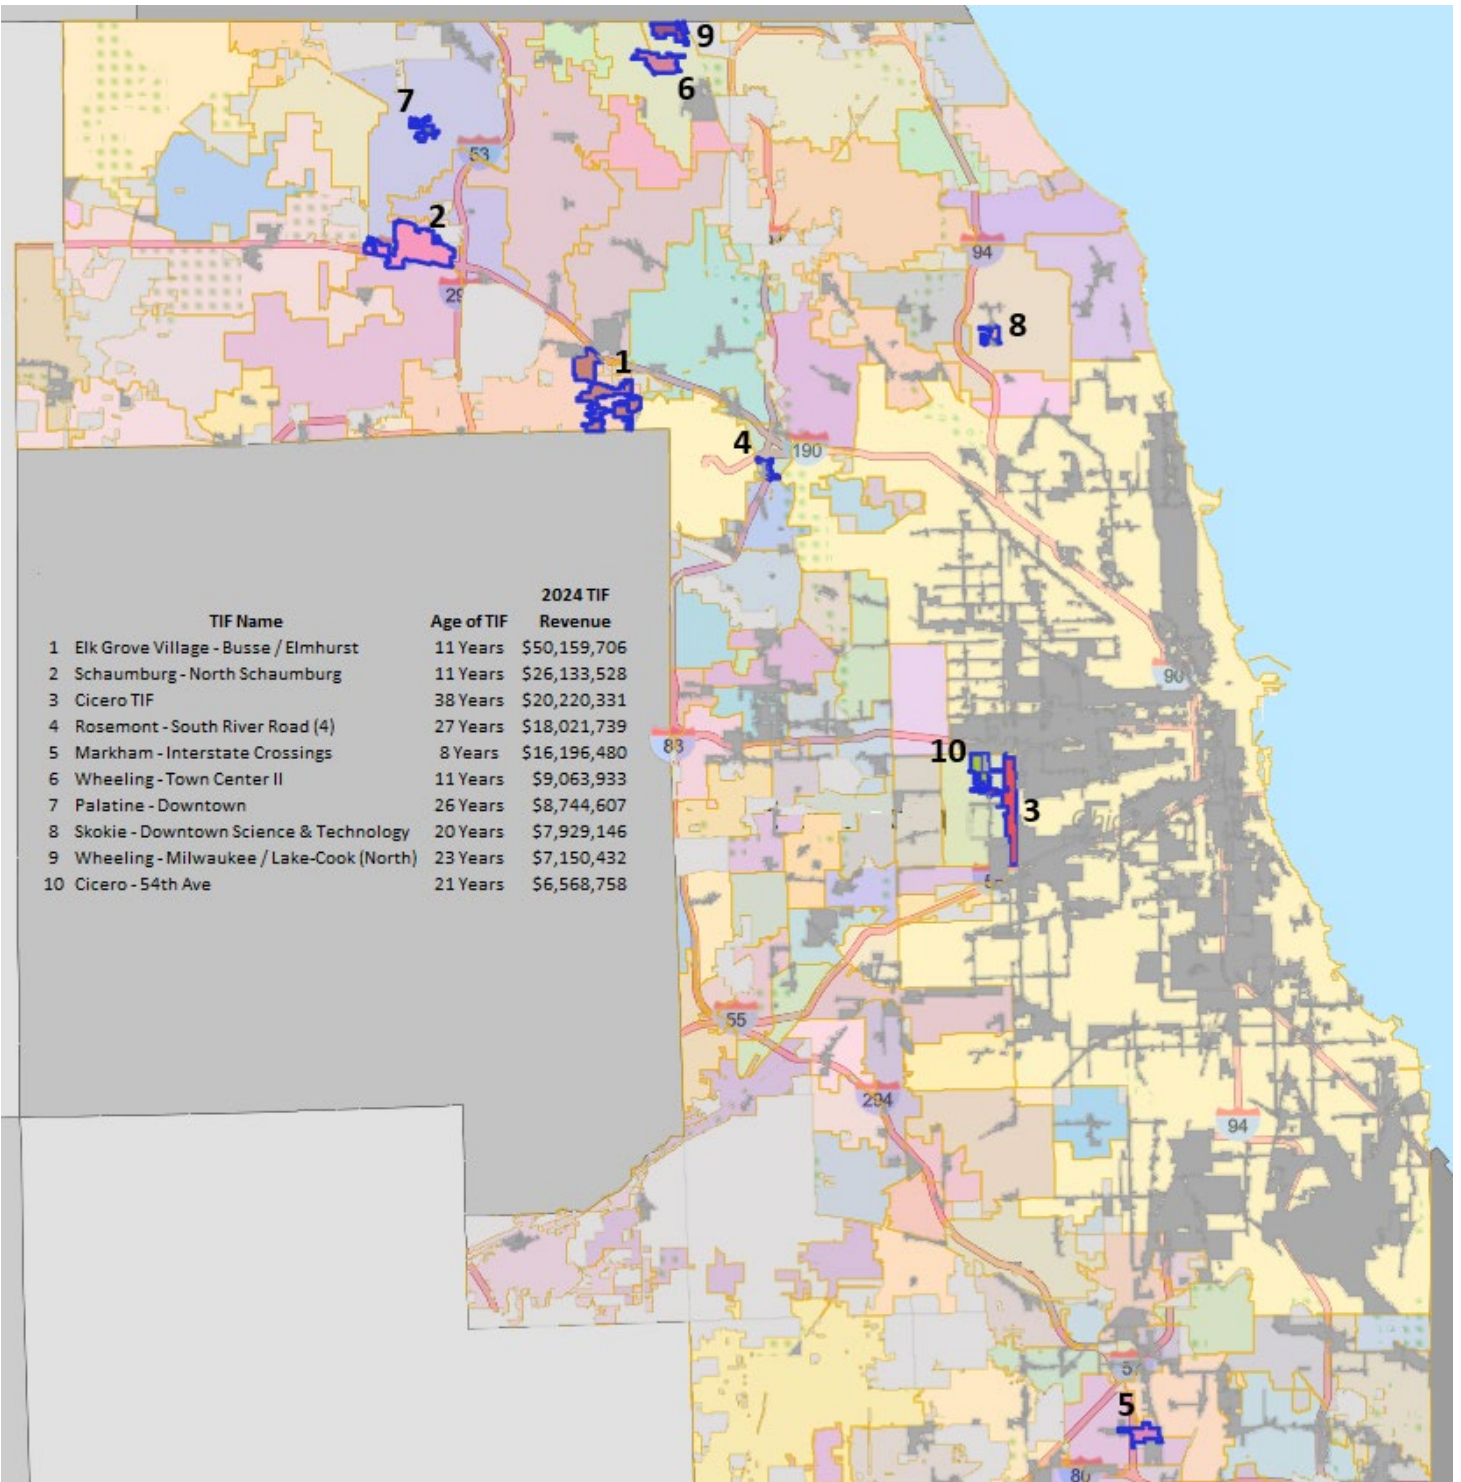

In suburban Cook County, which was not reassessed, TIF Revenue increased by 14.49% overall in tax year 2024 compared to tax year 2023. This is despite taxable values in the suburbs decreasing slightly overall (-0.14% in the north/northwestern suburbs and -0.98% in the south/western suburbs).

- TIF revenue increased 9.74% in the North and Northwestern suburbs.
- TIF Revenue increased 19.05% in the South and Western suburbs.

The following table lists the 10 suburban TIFs with the largest TIF revenue for tax year 2024.

Region	TIF NAME	First Year	2024 TIF Revenue	Total TIF Revenue
N	Elk Grove Village - Busse / Elmhurst	2014	50,159,706	232,885,293
N	Schaumburg - North Schaumburg	2014	26,133,528	143,884,423
S	Cicero TIF	1987	20,220,331	334,660,796
N	Rosemont - South River Road (4)	1998	18,021,739	171,786,640
S	Markham - Interstate Crossings	2017	16,196,480	52,595,339
N	Wheeling - Town Center II	2014	9,063,933	47,312,353
N	Palatine - Downtown	1999	8,744,607	131,504,808
N	Skokie - Downtown Science & Technology	2005	7,929,146	67,984,065
N	Wheeling - Milwaukee / Lake-Cook (North)	2002	7,150,432	89,130,914
S	Cicero - 54th Ave	2004	6,568,758	29,990,350

The following map shows the locations of the ten suburban TIFs with the largest revenue for tax year 2024.

Factors that impact TIF revenue

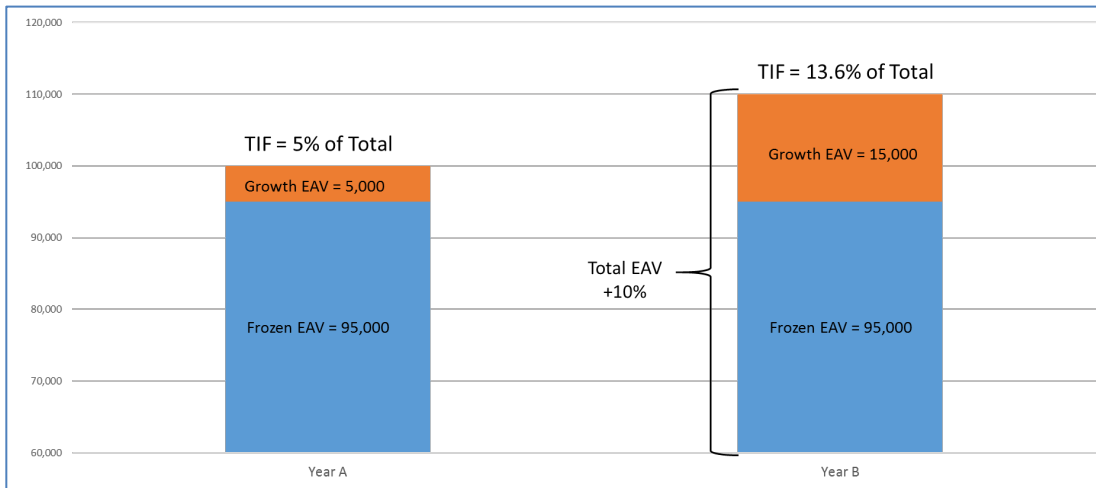

Following the triennial reassessment in the City of Chicago this year, taxable values within the City increase 10.2%. However, TIF revenue in that same area increased 16.1%. TIF revenue is driven by tax rates and the growth in taxable value (EAV) that occurs within the TIF area. Of these two factors, growth within the TIF has a greater impact on TIF revenue. This year, the area with the greatest EAV growth (the City of Chicago) also experienced the greatest increase in TIF revenue.

Following the triennial reassessment in the City of Chicago this year, the total taxable value within the City increased by approximately 10.21% compared to last year.

Below is an example of how increasing EAVs impact the revenue generated within a TIF:

In this example, the total taxable value (EAV) in a TIF increases 10% (from 100,000 to 110,000), yet the frozen value would remain the same (95,000) while the incremental value would see a larger percentage increase (5% of total EAV of the district to 13.6%):

Sample TIF	Prior Year Value	Current Year Value	Increase
Total Taxable Value	100,000	110,000	10%
Frozen Value	95,000	95,000	0%
Incremental Value	5,000	15,000	200%
Portion of Revenue to TIF	5%	13.6%	172%

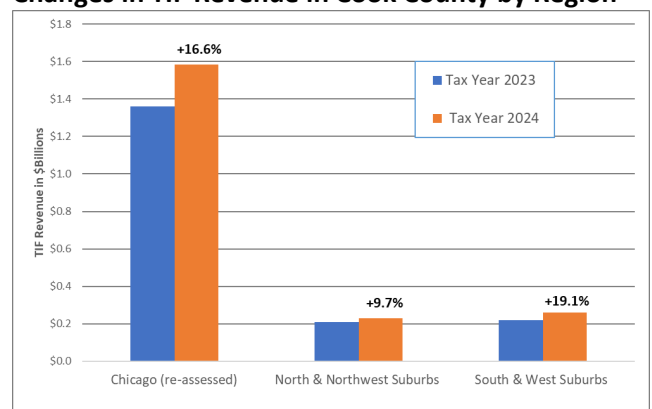

The following charts show the differences in total equalized assessed value (EAV) by region and the corresponding differences in TIF revenue by region.

Changes in EAV in Cook County by Region

Changes in TIF Revenue in Cook County by Region

New TIFs and individual value increases due to new construction within TIFs are two factors that may lead to TIF revenue increases.

The other primary driver of suburban TIF revenue increases is the implementation of the County’s new Property Tax System, which calculates TIF revenue on a property-by-property basis, as is done in other Illinois counties. Previously, TIF revenue was calculated by aggregating the total increment within a TIF, which resulted in some properties contributing less to the TIF than had they been calculated independently.

Below is a comparison of the Legacy “aggregated” TIF calculation to the new “property-by-property” TIF calculation.

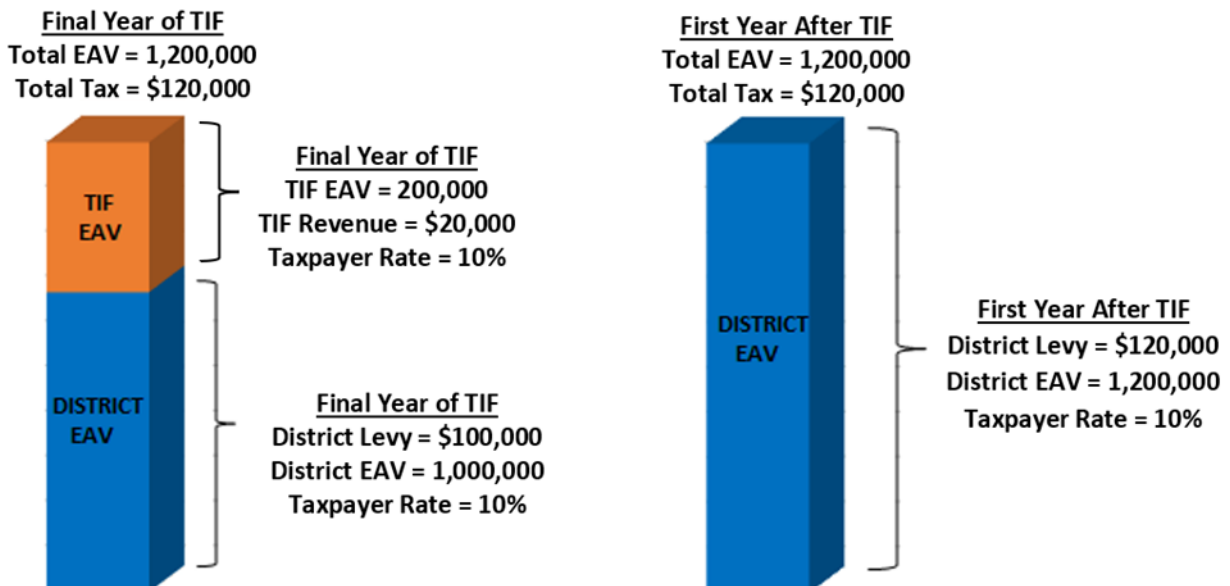

Legacy TIF Revenue Calculation		
	Frozen Value	Current Value
Parcel A	50,000	60,000
Parcel B	100,000	97,500
Parcel C	30,000	35,000
Parcel D	10,000	15,000
Totals	190,000	207,500
Total Increment (Total Current Value minus Total Frozen Value)		17,500
Tax Rate		7%
TIF Revenue		\$1,225

New TIF Revenue Calculation			
	Frozen Value	Current Value	Increment
Parcel A	50,000	60,000	10,000
Parcel B	100,000	97,500	0
Parcel C	30,000	35,000	5,000
Parcel D	10,000	15,000	5,000
Total Increment (Sum of Increment by Parcel)			20,000
Tax Rate			7%
TIF Revenue			\$1,400

After TIFs Close

The typical lifespan of a TIF is 23 years, though TIFs may be extended through legislation or terminated early by the municipality. There are two ways other taxing districts may benefit when a TIF retires: TIF Surplus and recovered TIF value.

- TIF Surplus may be declared by the municipality at any time during the life of a TIF, but normally it is declared after the TIF retires. The surplus is surrendered to the Cook County Treasurer, who distributes it proportionally to all of the taxing districts affected by the TIF.
- After a TIF has been retired, taxing districts, which were formerly only able to tax at the frozen value, are able to recover all of the “new” value (previously the incremental value) within their boundaries, which was previously available only to the TIF. In the year the TIF retires, taxing districts may increase their levies to receive a one- time revenue increase, which may result from the addition of the incremental value, without a corresponding increase in the tax rate applied to their taxpayers. Below is an example of how taxing districts may increase their levy following the retirement of a TIF without increasing the tax rate applied to taxpayers.

Additional TIF Information

- The following report includes additional information pertaining to TIFs active in tax year 2024.
- Additionally, current and previous TIF reports, the TIF property search tool, and TIF maps can be found at <https://www.cookcountyclerkil.gov/property-taxes/tifs-tax-increment-financing/tif-reports>
- In collaboration with the Cook County Bureau of Technology's GIS Division, the Clerk's TIF Viewer mapping application has been updated and modernized this year. Using a PC or mobile device, TIF data may be searched by TIF name, municipality, PIN, or taxing district such as Park District or School District. <https://maps.cookcountylil.gov/tifViewer/>

Tax Increment Financing (TIF) FAQs

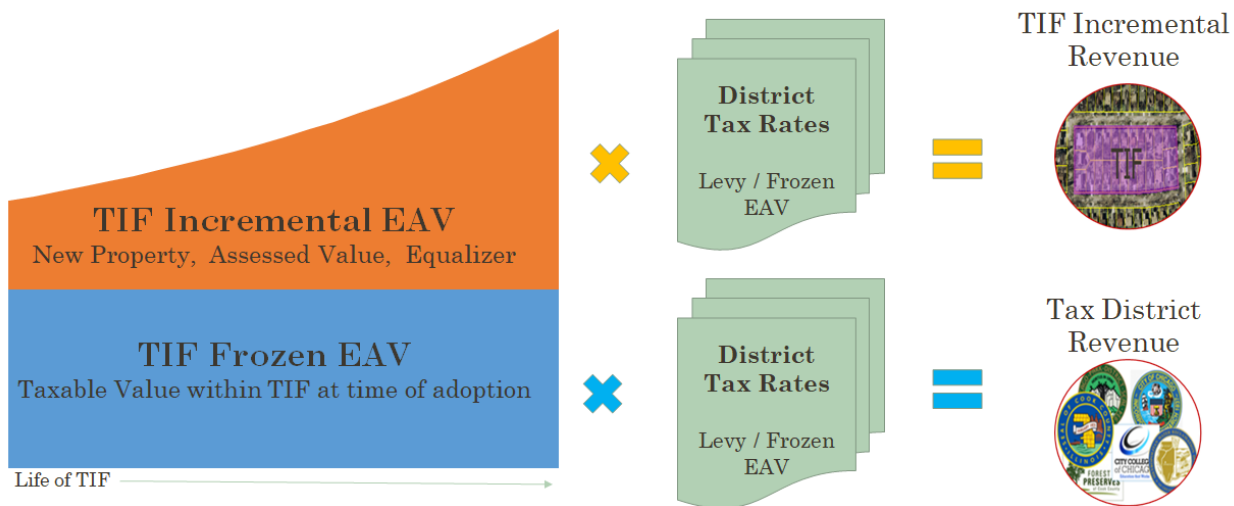

What is a TIF?

"TIF" stands for Tax Increment Financing, a statutory financing tool that municipalities can use to generate funds for economic development in a specific geographic area. TIFs allow municipalities to re-invest all tax dollars generated by value growth within the TIF district for typically a 23-year period.

A TIF district generates revenue when a new development takes place in the TIF district, or if the value of existing properties grow due to the increased market value of the properties in the TIF. These funds can be spent on public works projects or given as subsidies to encourage private development. TIF revenue can also be used by a municipality to acquire private property and demolish buildings to make way for new construction.

How is TIF revenue determined?

When a TIF is established, the County Clerk certifies the initial taxable value (also known as equalized assessed value or EAV) within the TIF area. This initial or base value is then "frozen" for the life of the TIF. Taxing districts within the TIF have access to only the "frozen" value when their tax rates are calculated. If there is any increase in EAV within the TIF, the Clerk will then calculate that value growth, or "increment", that occurs in a TIF each year. That increment is multiplied by the composite tax rate of all the taxing districts in the TIF to establish the amount of incremental revenue to be directed to the TIF.

Why is TIF revenue up 16.1% this year even though total EAVs are up only 4.9%?

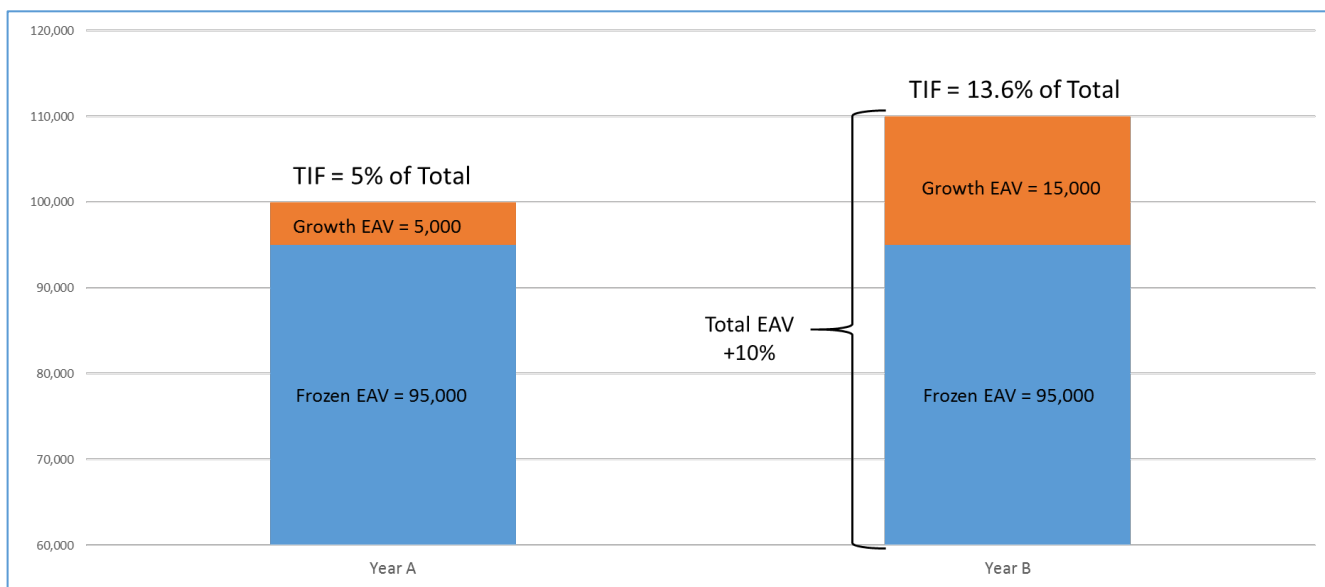

As shown above, TIF revenue is driven by tax rates and the growth in taxable value (EAV) that occurs within the TIF area. Of these two factors, growth within the TIF has a larger impact on TIF revenue. This year, the area with the greatest EAV growth (the City of Chicago) also experienced the greatest increase in TIF revenue.

Following the triennial reassessment in the City of Chicago this year, the total taxable value within the City increased by approximately 10.21% compared to last year.

Below is an example of how increasing EAVs impact the revenue generated within a TIF:

In this example, the total taxable value (EAV) in a TIF increases 10% (from 100,000 to 110,000), yet the frozen value would remain the same (95,000) while the incremental value would see a larger percentage increase (5% of total EAV of the district to 13.6%):

Sample TIF	Prior Year Value	Current Year Value	Increase
Total Taxable Value	100,000	110,000	10%
Frozen Value	95,000	95,000	0%
Incremental Value	5,000	15,000	200%
Portion of Revenue to TIF	5%	13.6%	172%

As the example above illustrates, when taxable value increases combined with increases in tax rates, TIF revenues increase more rapidly than traditional property taxes.

In suburban Cook County, which was not reassessed, TIF Revenue increased by 14.49% overall in tax year 2024 compared to tax year 2023. This is despite taxable values in the suburbs decreasing slightly overall (-0.14% in the north/northwestern suburbs and -0.98% in the south/western suburbs).

- TIF revenue increased 9.74% in the North and Northwestern suburbs.
- TIF Revenue increased 19.05% in South and Western suburbs.

New TIFs and individual value increases due to new construction within TIFs are two factors which may lead TIF revenue increases.

The other primary driver of suburban TIF revenue increases is the implementation of the County’s new Property Tax System, which calculates TIF revenue on a property-by-property basis, as is done in other Illinois counties. Previously, TIF revenue was calculated by aggregating the total increment within a TIF, which resulted in some properties contributing less to the TIF than had they been calculated independently.

Below is a comparison of the Legacy “aggregated” TIF calculation to the new “property-by-property” TIF calculation.

Legacy TIF Revenue Calculation		
	Frozen Value	Current Value
Parcel A	50,000	60,000
Parcel B	100,000	97,500
Parcel C	30,000	35,000
Parcel D	10,000	15,000
Totals	190,000	207,500
Total Increment <small>(Total Current Value minus Total Frozen Value)</small>		17,500
Tax Rate		7%
TIF Revenue		\$1,225

New TIF Revenue Calculation			
	Frozen Value	Current Value	Increment
Parcel A	50,000	60,000	10,000
Parcel B	100,000	97,500	0
Parcel C	30,000	35,000	5,000
Parcel D	10,000	15,000	5,000
Total Increment <small>(Sum of Increment by Parcel)</small>			20,000
Tax Rate			7%
TIF Revenue			\$1,400

What happens to TIF funds?

The statutory intent of TIF is to revitalize economically blighted areas or older structures in need of renovation and rehabilitation. With active community participation, TIFs can be a useful tool for implementing community-based revitalization plans through encouraging affordable housing development, improving parks and schools, fixing basic infrastructure, putting vacant land to productive use, creating well-paying jobs, and meeting other local needs.

TIF revenue is administered by the municipality, which has wide discretion over how TIF revenue is spent as defined in the approving ordinance of each TIF. Additionally, municipalities are able to enter into Intergovernmental Agreements with schools and other taxing districts to utilize TIF funds for capital improvement projects within those districts.

Is my property in a TIF?

If your property is in a TIF district, it will be listed in the Municipality/Township Taxes section of your tax bill.

TAXING DISTRICT BREAKDOWN

My tax bill says that a percentage of my payment is going to a TIF. Does this mean that without the TIF my tax bill would be lower?

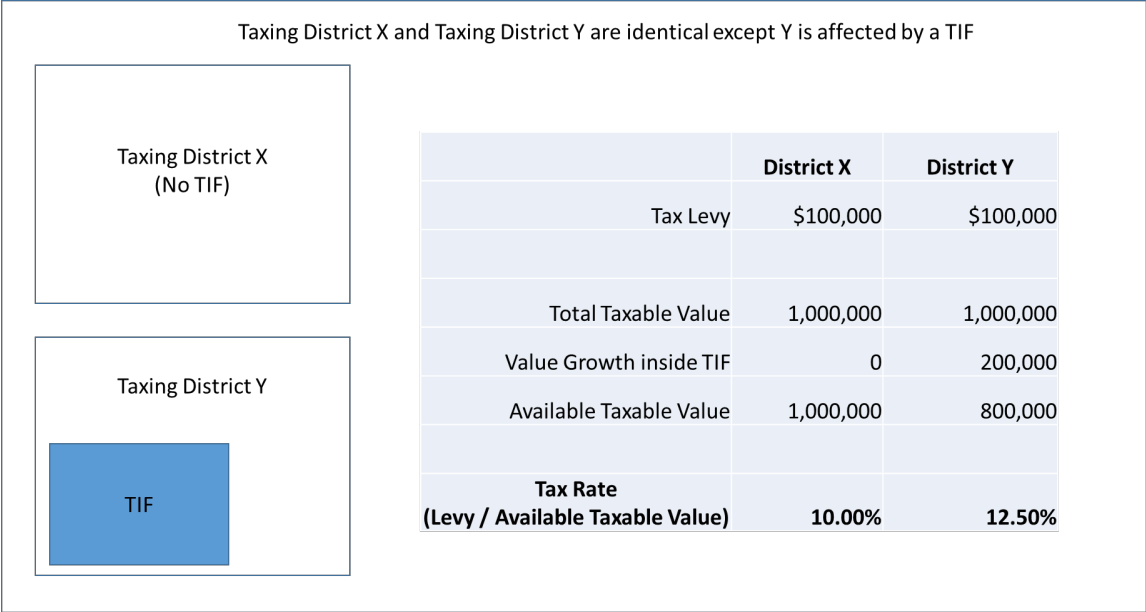

Your tax bill is calculated based on the taxable value (equalized assessed value or EAV) of your property multiplied by the combined rates of all of the taxing districts which serve your property, regardless of whether your property is in a TIF district or not. The difference the TIF makes is where your tax dollars are going.

As illustrated below, if a property is not located within a TIF, all of its tax bill goes to the taxing districts (municipality, school, park, etc). If a property is in a TIF, part of the tax bill goes to the TIF and the rest goes to the taxing districts. Thus, although each taxpayer is paying the same amount in taxes, the taxes are distributed differently.

Furthermore, a TIF will affect all those taxpayers within a taxing district that are subject to the TIF. Because a TIF captures the incremental value, which is no longer available to the other taxing districts, the tax levies of the other districts are now distributed upon a smaller amount of EAV which results in the tax rates of those districts being higher. Consequently, tax bills are higher for all properties in taxing districts affected by TIF.

As shown in the example below, where Taxing District X and Y request the same amount for their levy (\$100,000) but District X has no TIF, the levy for District X will be divided by the full taxable value or EAV (1,000,000). However, for District Y, its levy (\$100,000) is divided by the remainder of EAV, after the incremental value is given to the TIF, or the 800,000. Hence, the tax rate for District X without the TIF is 10%(100,000 / 1,000,000), where the tax rate for District Y with the TIF is 12.5%(100,000 / 800,000). Also note, the 12.5% tax rate is applied to all properties in District Y, regardless of the property being within the TIF boundaries or not.

**The above examples are purely hypothetical and do not represent actual properties or TIFs*

What is a “Transit TIF” and what does it mean to my taxes?

Generally, Tax Increment Financing (TIF) is a statutory financing tool that municipalities may use to generate funds for economic development in a specific geographic area. In a typical TIF, properties within the TIF area must meet certain criteria, such as blight, or other indicators of economic hardship in order for a TIF to be established. As stated previously, the other taxing districts, such as Schools, Park Districts, and Libraries, only have access to the frozen base taxable value within the TIF district at the time the TIF is created for the duration of the TIF (typically 23 years). And, any tax revenue generated from the value growth within the TIF is directed to the TIF itself.

However, Transit TIFs differ from traditional TIFs in that there is no hardship requirement and they may last for 35 years. Another major distinction of a Transit TIF is that part of the tax revenue generated from the value growth within the Transit TIF is distributed to the other taxing districts. (See 65 ILCS 5/11-74.4-8) The first Transit TIF in the City of Chicago, established in 2016, is intended to modernize the north side CTA Red and Purple train lines with the assistance of revenue from Federal and State grants. The second Transit TIF in the City of Chicago was established in 2022 and is intended to fund an expansion of the Red Line on the south side of the City.

What does it mean if my property is in the one of the City’s Transit TIFs?

If your property is in one of Chicago’s two Transit TIFs, you will see two line items on your bill related to the TIF. Due to the statutory rules regarding the distribution of Transit TIF funds, part of the Transit TIF revenue generated each year goes to the other taxing districts. CPS receives its statutory share of the TIF revenue, while 80% of the remainder goes to the TIF and the other 20% is distributed proportionally to the other taxing districts.

The two line items regarding the Transit TIF show the amount of the taxes distributed to CPS and the amount which went to the Transit TIF. The other 20% is not delineated per district but included in the total amounts shown of the other taxing districts. Accordingly, tax bills for the properties that fall within each Transit TIF will appear as shown below.

MUNICIPALITY/TOWNSHIP TAXES			
City of Chicago - TIF Transit RPM1	1,914.83	0.000	11.52%
Chicago School Bldg & Imp Fund	270.38	0.153	1.62%
Chicago Library Fund	235.04	0.133	1.42%
City of Chicago	2,877.07	1.628	17.31%
Municipality/Township Taxes Total	5,297.32	1.914	31.87%

MUNICIPALITY/TOWNSHIP TAXES			
TIF Transit City Of Chicago-RLE	1,159.11	0.000	2.36%
Chicago School Bldg & Imp Fund	1,006.84	0.153	2.05%

Municipality/Township Taxes Total	13,754.42	1.914	28.01%

The amount of TIF revenue directed to CPS is displayed on Transit TIF tax bills as “Board of Education – from Transit TIF” in the School Taxes section of the bill.

SCHOOL TAXES			
Board of Education - from Transit TIF	2,742.70	0.000	16.50%
Board of Education Chicago	6,134.42	3.757	36.90%
Chicago Community College District	273.92	0.155	1.65%
School Taxes Total	9,151.04	3.912	55.05%

What is porting?

Statute allows a municipality to transfer TIF revenue generated in one TIF district to adjoining TIF districts to fund regional projects (65 ILCS 5/11-74.4-4(q)). This transfer of funds from one TIF to another is known as “porting”.

What is TIF Surplus?

The typical lifespan of a TIF is 23 years, though TIFs may be extended through legislation or terminated early by the municipality. There are two ways other taxing districts may benefit when a TIF retires: TIF Surplus and recovered TIF value.

TIF Surplus may be declared by the municipality at any time during the life of a TIF, but normally it is declared after the TIF retires. The surplus is surrendered to the Cook County Treasurer, who distributes it proportionally to all of the taxing districts affected by the TIF.

What is Recovered TIF Value and how does it impact Taxing Districts?

After a TIF has been retired, taxing districts, which were formerly only able to tax at the frozen value, are able to recover all of the “new” value (previously the increment value) within their boundaries which was going to the TIF. In the year the TIF retires, districts may increase their levies to receive a one-time revenue increase because of the addition of the increment value, without a corresponding increase in the tax rate applied to their taxpayers.

What resources does the Clerk have available to research TIFs?

In addition to the TIF Property Search and TIF Viewer application, the Cook County Clerk also provides TIF Reports, TIF Maps, and a short, informative video “Understanding TIFs” on our website:

<https://www.cookcountyclerk.il.gov/property-taxes/tifs-tax-increment-financing> (See screenshot below)

The screenshot shows the website for Monica Gordon, Cook County Clerk's Office. The main navigation menu on the left includes: Property Taxes, Tax Redemption, Tax Extension And Rates, Tax Agency Reports, TIFs (Tax Increment Financing), TIF Property Search, TIF Reports, TIFs IOI, TIF Maps, TIF FAQs, About Property Tax Index Number (PIN), GIS and Tax Maps, Property Tax IOI, Tax FAQs, and Tax Buyers. The main content area is titled "TIFs (Tax Increment Financing)" and features a "TIF Viewer" application preview. Below the preview are several informational links and videos: "TIFs 101: A taxpayer's TIF primer", "Understanding TIFs: Video", "TIF Reports", "TIF Maps", and "FAQs and Useful Links".

TIFs (Tax Increment Financing)

TIF Viewer

The Clerk's new TIF Viewer is an interactive mapping application which allows users to display tax increment dollars and maps of Tax Increment Financing Districts in Cook County.

- Select TIFs interactively on the map
- Search TIFs by Municipality
- Zoom to Parcels by searching for PIN or Address
- Zoom to City of Chicago Wards
- View and export TIF Revenue information for research and analysis
- Drawing and text tools allow users to make their own maps

TIFs 101: A taxpayer's TIF primer

Learn the basics of how TIFs are established and how they work.

Understanding TIFs: Video

Watch an informational video on how tax increment financing districts work.

TIF Reports

Review TIF Executive Summary and total distribution data for each Cook County TIF for tax years 2006-2023.

TIF Maps

Maps available for viewing or download include: Countywide TIF map, City of Chicago TIF map, TIF revenue analysis maps.

FAQs and Useful Links

- City of Chicago's TIF website
- City of Chicago's Annual TIF Report
- Suburban municipalities contact information
- Information on annual TIF reports filed with the state

What other resources are available to research TIFs?

Municipalities are required to file annual reports with the Illinois Comptroller's office. Those reports are available online at: <http://warehouse.illinoiscomptroller.com/>

The following organizations also provide information regarding TIFs:

Illinois Tax Increment Association: <http://www.illinois-tif.com/>

The Civic Federation: <https://www.civicfed.org/>

The TIF Illumination Project: <http://www.tifreports.com/>

City of Chicago TIF Data Portal: <https://www.chicago.gov/city/en/depts/dcd/provdrs/tif.html>

City of Chicago Transit TIFs

Fact Sheet

Overview of Red Purple Modernization Phase 1 (RPM1) Transit TIF

- Intended to fund transit improvements along CTA rail lines on the north side of Chicago and repay federal loans
- First Transit TIF in Illinois – adopted by City Council November 30, 2016
- Located along CTA Red and Purple line tracks on the north side from North Ave to Devon Ave

Overview of Red Line Expansion (RLE) Transit TIF

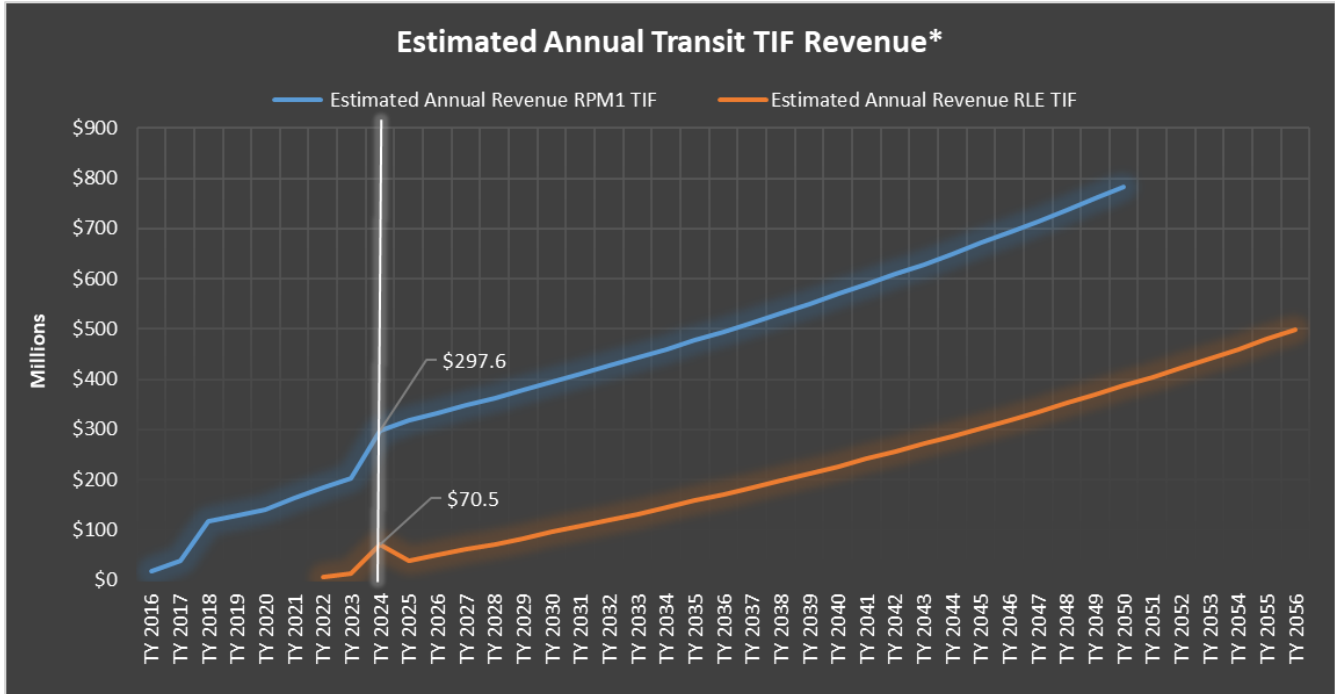

- Intended to fund extension of the CTA Red line on the south side of Chicago to 134th Street
- Second Transit TIF in Illinois – adopted by City Council December 27, 2022
- Located along CTA Red line tracks on the south side from Madison St to Pershing Rd

Transit TIF Revenue in 2024

TIF Revenue is calculated by multiplying the Incremental value in each TIF (the current taxable value of each TIF minus the base or “frozen” value of the TIF at the time of its inception) by the composite tax rate of the properties within each TIF.

		RPM1 TIF	RLE TIF
Net Increment (Value Growth) in the TIF		4,450,000,000	1,060,000,000
x Annual Tax Rate of Properties in the TIF	x	7%	7%
= Annual TIF Revenue	=	\$297,600,000	\$70,500,000

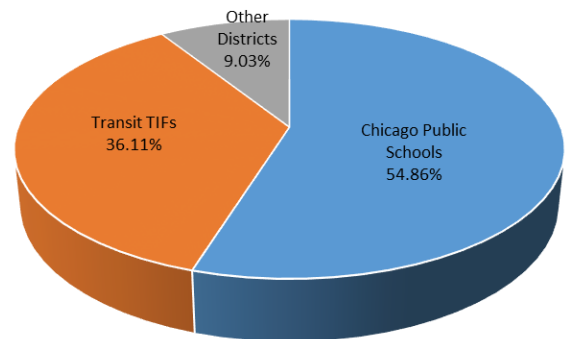

*Years 2016 to 2024 = Actual; Years 2024+ are based on estimated 2% value increase per year and estimated 7% annual tax rate
Total Incremental revenue = total revenue generated, including the portion distributed to other tax districts

Unique Statutory Rules for Transit TIFs

- May run for 35 years (rather than 23 years for traditional TIFs)
- No “blight” requirement (65 ILCS 5/11-74.4-8)
- A portion of Transit TIF revenues are distributed to other Taxing Districts in addition to annual tax levies:
 1. CPS receives their proportionate share of TIF revenue¹
 2. 80% of non-CPS portion is distributed to Transit TIF
 3. 20% of non-CPS portion is distributed proportionally to other taxing districts

Distribution of TIF funds for Typical Taxpayer within a Transit TIF - Tax Year 2024

¹ CPS proportionate share of Transit TIF revenue is based on the annual tax rate for CPS compared to the total composite tax rate of all taxing districts servicing Transit TIF properties. (Example: 2024 CPS rate = 3.630964% and Chicago General Composite Rate = 6.618606% making CPS 54.86% of the overall tax rate.)

Transit TIF Tax Bills

A typical second installment property tax bill shows the breakdown of where your taxes go, including the portion, if any, going to TIF.

Chicago did not increase the size of any TIFs in 2024

TIF Revenue in the City of Chicago:

- Chicago TIFs will generate a record \$1.6 billion for tax year 2024, nearly 18% of total property tax billed in the City of Chicago.
- Chicago TIF revenue increased \$225 million (16.57%) in tax year 2024 over tax year 2023.
- One Chicago TIF generated no revenue: Cicero/Stevenson (new 2022).
- Of the Chicago TIFs that did generate revenue this year, the lowest was the Diversey/Chicago River TIF which generated just over \$300,000.
- Approximately \$234 million of the \$368 million generated by Chicago's two Transit TIFs will be directed to other taxing districts this year.

Ten Chicago TIFs generated over \$30 million each in 2024

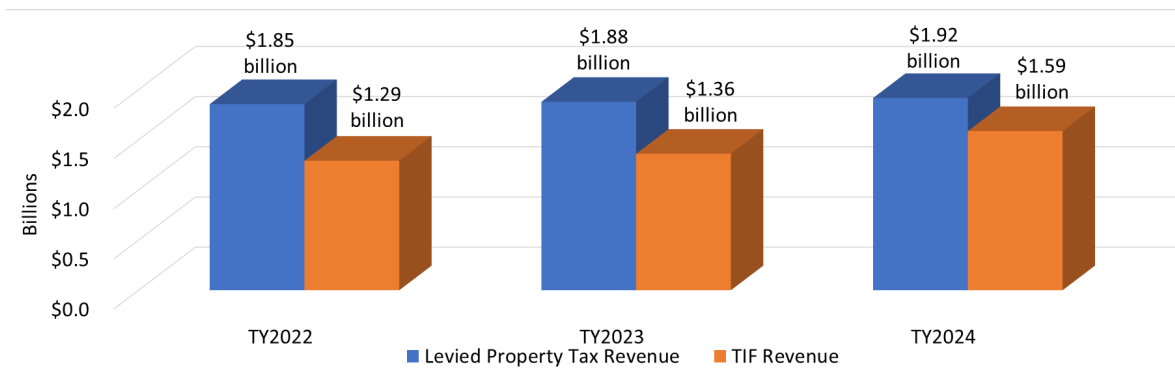

One Chicago TIF generated no revenue this year due to having no overall incremental value growth.

TIF Name	First Year	Ward(s)	Total TIF Revenue (All Years)	Most Recent Revenue
Chicago – Cicero / Stevenson	2022	19	\$0	N/A

Chicago TIF Revenue compared to Property Tax Levy

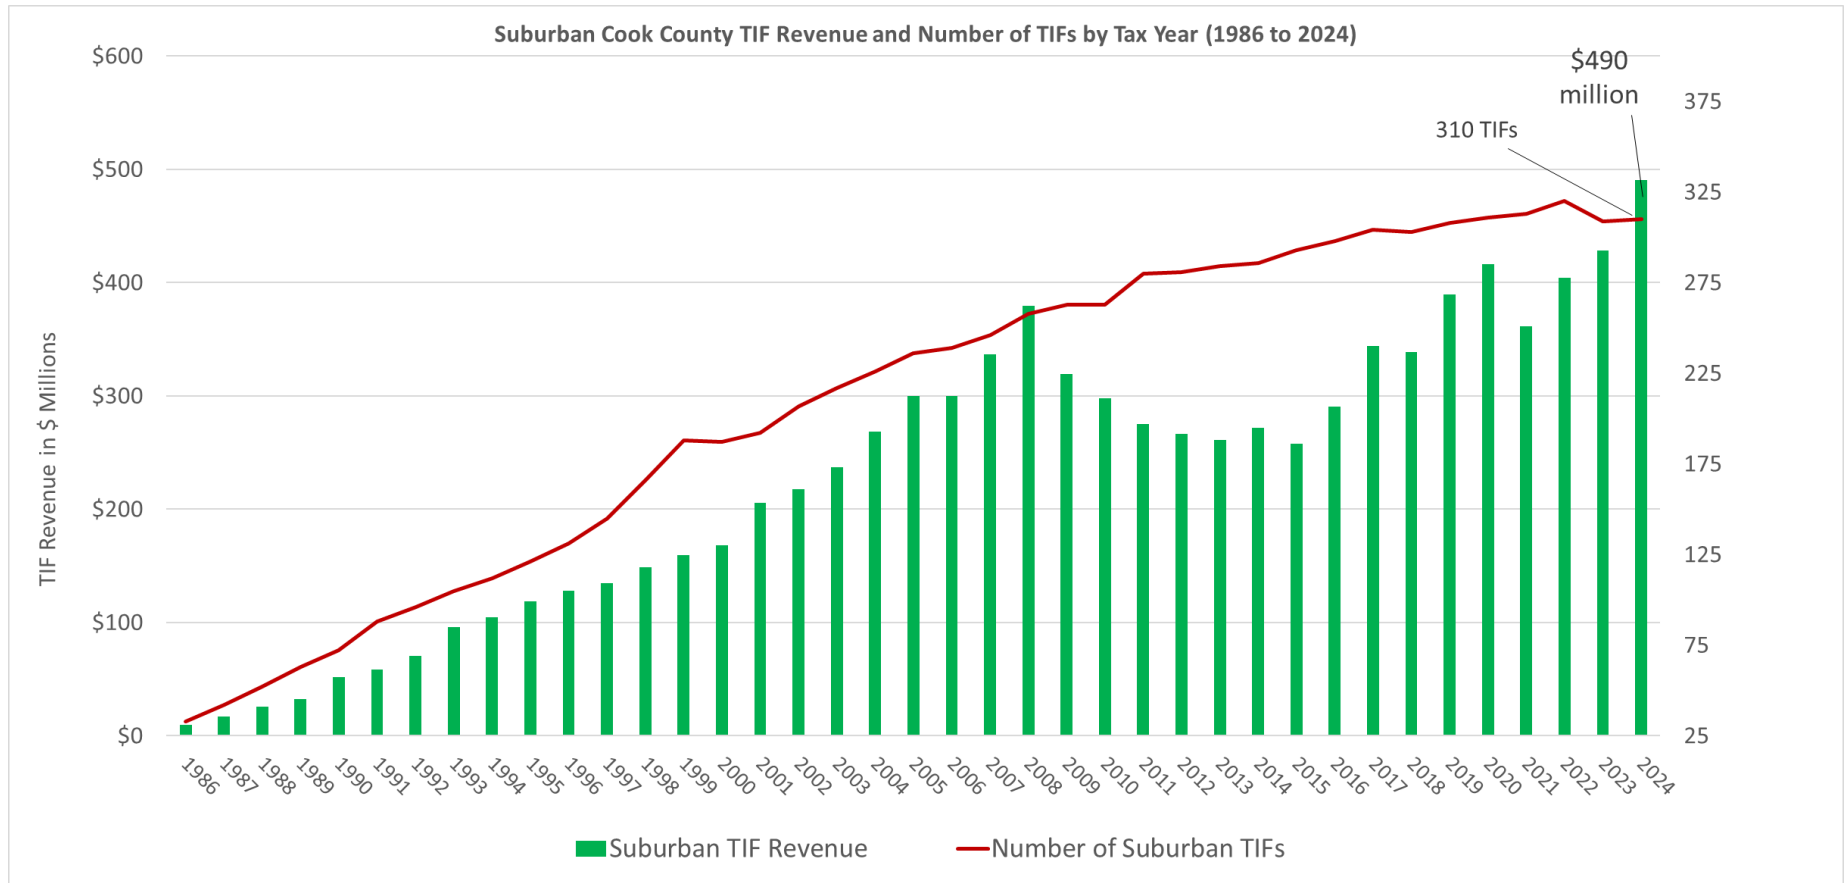

The total property tax revenue generated by the City of Chicago’s annual property tax levy for tax year 2024 is nearly \$1.92 billion. Property tax revenue generated by Chicago TIFs this year is nearly \$1.6 billion, approximately 45% of the total property tax revenue generated for the City of Chicago.

The charts below illustrate the comparison between the City of Chicago’s property tax levy and Chicago TIF revenue.

Overall TIF Revenue increased 16.57% in the City of Chicago but individual TIFs vary.

Suburban Cook County Tax Year 2024 TIF Overview

Suburban TIFs

- There are 310 active TIFs generating approximately \$490 million in property tax revenue in Suburban Cook County. There are TIFs in 73% of suburban Cook County municipalities.
- Approximately 1 in 24 properties in Suburban Cook County lie within TIF districts. Countywide, 1 in 6 properties are in TIF districts.

Nine new TIFs were created in the Suburbs, and two suburban TIFs were expanded.

New Suburban TIFs for Tax Year 2024

TIF Revenue in Suburban Cook County

In the City of Chicago, TIF revenue increased 16.57% this year. This is primarily due to the fact that the City was reassessed this year. The overall taxable value increased by 10.21%.

In suburban Cook County, which was not reassessed, TIF Revenue increased by 14.49% overall in tax year 2024 compared to tax year 2023. This is despite taxable values in the suburbs decreasing slightly overall (-0.14% in the north/northwestern suburbs and -0.98% in the south/western suburbs).

TIF revenue increased 9.74% in the North and Northwestern suburbs.

TIF Revenue increased 19.05% in South and Western suburbs.

Factors that impacted TIF Increases in Suburban Cook County

New TIFs and individual value increases due to new construction within TIFs are two factors which may lead TIF revenue increases.

The other primary driver of suburban TIF revenue increases is the implementation of the County’s new Property Tax System, which calculates TIF revenue on a property-by-property basis, as is done in other Illinois counties. Previously, TIF revenue was calculated by aggregating the total increment within a TIF, which resulted in some properties contributing less to the TIF than had they been calculated independently.

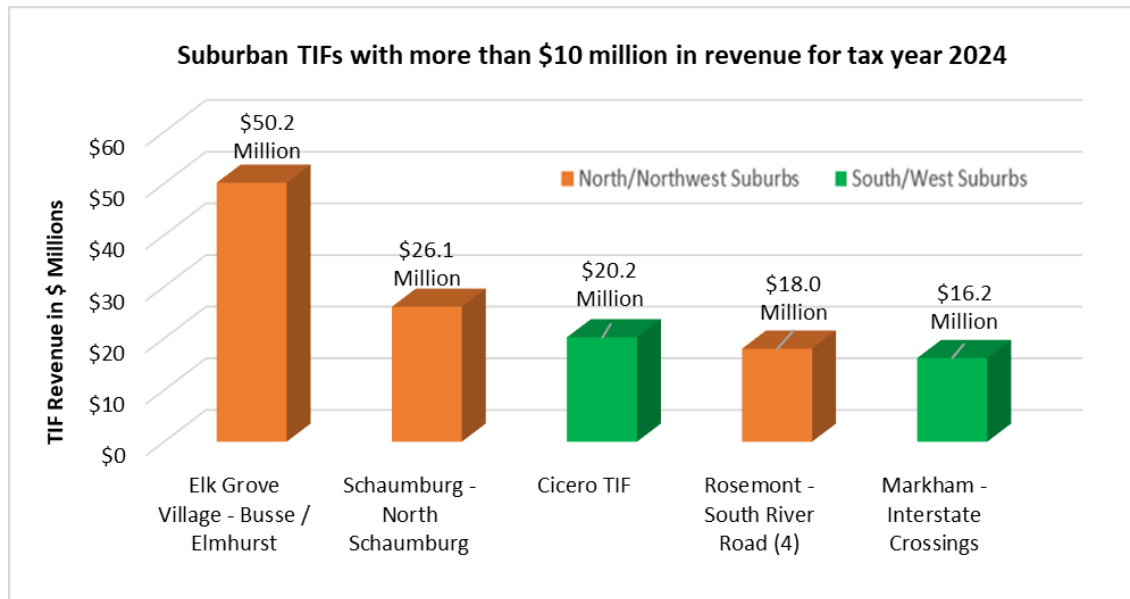

Below is a comparison of the Legacy “aggregated” TIF calculation to the new “property-by-property” TIF calculation.

Legacy TIF Revenue Calculation		
	Frozen Value	Current Value
Parcel A	50,000	60,000
Parcel B	100,000	97,500
Parcel C	30,000	35,000
Parcel D	10,000	15,000
Totals	190,000	207,500
Total Increment (Total Current Value minus Total Frozen Value)		17,500

TIF Revenue			\$1,400

Five Suburban TIFs generated over \$10 million each

Three of the suburban TIFs generating over \$10 million this year were in the north or northwestern suburbs. TIFs in the Town of Cicero and Markham also generated over \$10 million this year.

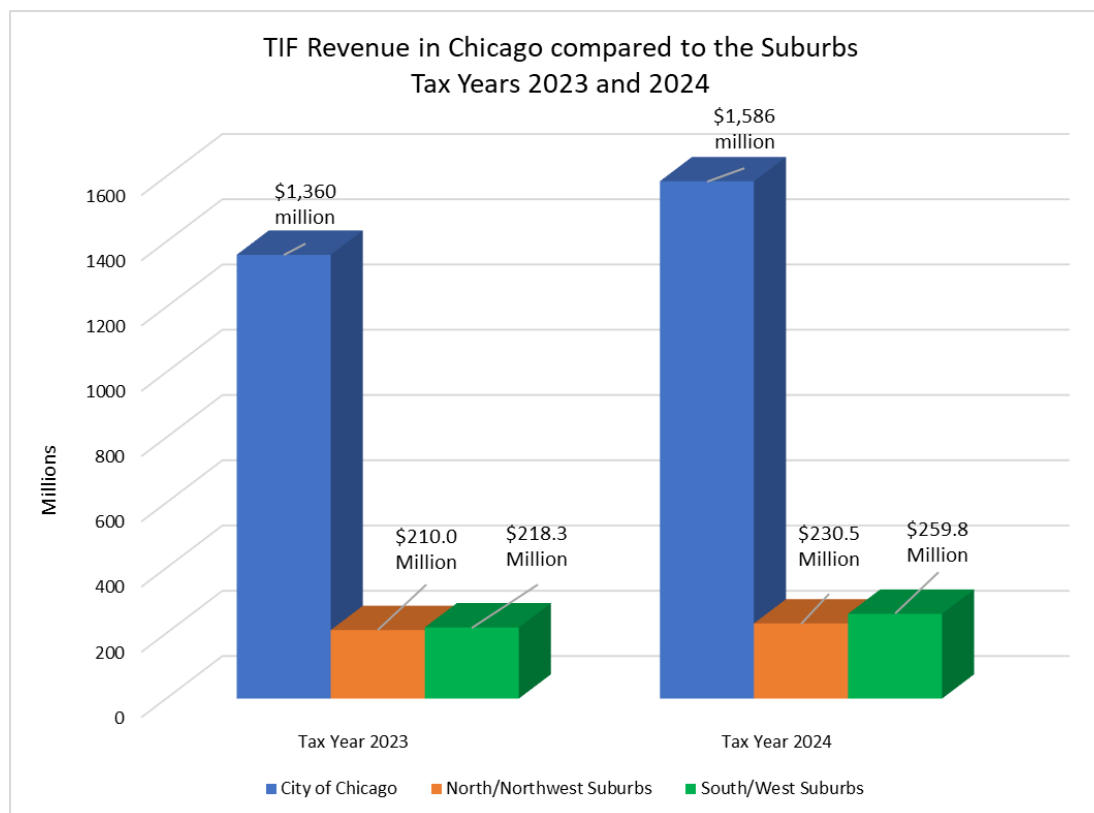

Six Suburban TIFs generated no revenue this year

In suburban Cook County, 6 TIFs, including one new TIF, have generated no revenue over their lifetimes.

Suburban TIFs with no lifetime revenue				
TIF Name	Status	First Year	Total TIF Revenue (All Years)	
Brookfield - Congress Park		2011	\$0.00	
Chicago Ridge Sears 95 th Street		2023	\$0.00	
Dolton - West Sibley		2021	\$0.00	
Homewood – 183 rd West	<i>New 2024</i>	2024	\$0.00	
Lynwood – Vernon Park Village		2013	\$0.00	

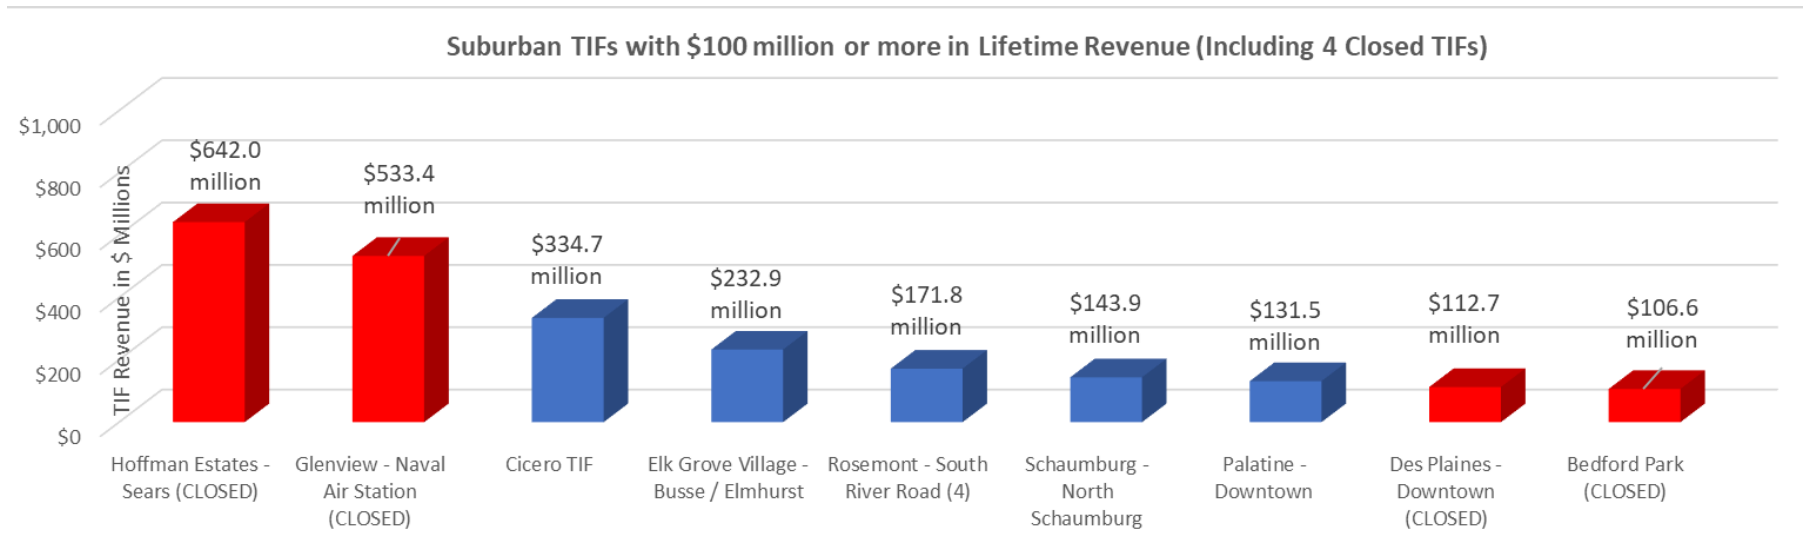

Largest Suburban TIFs

Of the 418 active TIFs in Cook County, 74.16% are in the suburbs, yet 76.1% of the TIF revenue in Cook County is generated by City of Chicago TIFs. North and northwest suburban TIFs comprise 11.1% of the total TIF revenue in Cook County. South suburban TIFs bring in 12.5% of the TIF revenue.

Suburban TIFs with the greatest lifetime revenue

Five active TIFs in suburban Cook County have generated at least \$100 million in lifetime revenue. Additionally, four closed TIFs in suburban Cook County also generated over \$100 million throughout their lifespans. Comparably, 22 active TIFs in the City of Chicago have generated at least \$100 million.
