ICE DAMAGED - Is Liner Damaged? - Last evening people walked on the ice and broke through - the very delicate rink lining could have been damaged. If it is damaged the rink will be unusable for the entire season. Let's hope that did not happen. The rink is surrounded with a fence, both entrances are blocked and numerous signs are posted on the fence - **Rink Closed - Do not entered fenced in area.**

REQUEST: Please Assist with Surveillance? If you see people climbing the fence or going into the rink - please call 911. The 14th District police and the Park Security agreed to assist with surveillance weeks ago - **please assist them** so the rink is not damaged this year.

CAMERA FOOTAGE - Several cameras are focused on the rink - footage will be pulled by our security partners, viewed, and vandals will be identified.

Doug Wood - WickerICE coordinator.
