

Sales & Use Tax Receipts

\$Millions

- Sales and use tax receipts from January to September 2021 are up 22% and 17% compared to the same time periods in 2020 and 2019
- Tax receipts from the sale of durable and non-durable goods are fueling the increase, while sales taxes on transportation and recreation services continue to struggle during the pandemic
- Level the Playing Field statutory changes required remote retailers and marketplace facilitators to register, collect and remit retailers' occupation sales taxes in January 2021
