**NPA3137**

**PREPARED FOR:**

**TEMKIN/HARRIS**

**CHICAGO**

**SEPTEMBER 2018**

## OVERVIEW

The following is a tabular report of a telephone survey among 500 registered voters in Chicago, Illinois. The survey was conducted from September 6-11, 2018, by trained, professional interviewers following procedures established by Normington, Petts & Associates.

All polls are subject to errors caused by interviewing a sample of persons, rather than the entire population. In 95 cases out of 100, the responses to this survey should fall within  $\pm 4.4$  percentage points of those that would have been obtained from interviewing the entire population of registered voters in Chicago, Illinois. The sampling error for subgroups of the survey will be greater.

As with any survey, the release of selected figures from this report without the analysis that explains their meaning could be damaging to Normington, Petts & Associates. Therefore, we reserve the right to correct any erroneous or misleading release of this data in any medium through the release of correct data or analysis.

The data have been weighted by age, education, race, region and sex to better reflect the composition of the electorate.
