

# OUT of REACH 2017

THE HIGH COST OF HOUSING

MADE POSSIBLE BY THE GENEROSITY OF:  
JPMORGAN CHASE & Co.

## NATIONAL LOW INCOME HOUSING COALITION

Established in 1974 by Cushing N. Dolbeare, the National Low Income Housing Coalition is dedicated solely to achieving socially just public policy that assures people with the lowest incomes in the United States have affordable and decent homes. NLIHC educates, organizes, and advocates to ensure decent, affordable housing within healthy neighborhoods for everyone.

NLIHC provides up-to-date information, formulates policy, and educates the public on housing needs and the strategies for solutions. Permission to reprint portions of this report or the data therein is granted, provided appropriate credit is given to the National Low Income Housing Coalition. Additional copies of *Out of Reach* are available from NLIHC.

The data for nonmetropolitan areas included in *Out of Reach* are published in collaboration with the Housing Assistance Council.

# PREFACE

## BY CONGRESSMAN KEITH ELLISON, U.S. HOUSE OF REPRESENTATIVES

**A**sma, a Somali immigrant in Minnesota, is proud of her newly-earned citizenship. She's optimistic about her family's future. Except for one thing: the cost of housing is eating up the precious little money she and her husband earn each month. To house their family, they pay nearly half their monthly earnings for rent. And of course, rent eats first. Before diapers for the baby, before medicine, food, and a rainy-day fund.

Asma and her family are not alone. The affordable housing crisis is hitting middle class, poor, rural, urban, people of all ethnicities, cultures and faith communities. Across the nation, millions of America's families are struggling to pay their rent each month. Growing numbers of low income seniors, people with disabilities, families with children, and other vulnerable people have more month than money.

The problem is systemic and is reaching almost epidemic proportions. Rents are soaring in every state and community at that same time when most Americans haven't seen enough of an increase in their paychecks.

The result: more than 7 million extremely low income families do not have an affordable place to call home and half a million people are living on the street, in shelters, or in their cars on any given night. The human toll this places on families – through stress and job loss – are extraordinary and well-documented by Harvard sociologist Matthew Desmond in his recent book, "Evicted: Poverty and Profit in the American City."

Despite the clear need, Congress has failed to address the affordable housing crisis in this country. Because of chronic underfunding, three out of every four families go without the housing assistance they need. Families wait for years on waiting lists before they see any assistance whatsoever. This is unacceptable. We can and must do better as a nation.

The most shameful part is the fact that we already have the resources and solutions needed to effectively end homelessness and housing poverty for millions of families. We just need the political will to do what is right.

Each year, Congress spends about \$200 billion to help house American families. A full three-fourths of these resources go to help subsidize the homes of the richest families through the mortgage interest deduction and other homeownership tax benefits. This means that we provide more housing

assistance to help the richest 7 million households – who earn more than \$200,000 a year – than to help the 55 million households that earn less than \$50,000 each year, even though these families are far more likely to struggle to keep a roof over their head.

In fact, we spend about \$11 billion each year to subsidize the houses of the top 1% - at the very same time that millions of families are being turned away from getting the help they need because Congress claims we cannot afford it.

This is wrong, but Congress has the opportunity to fix it through comprehensive tax reform legislation, which remains a top priority for Congress and the White House.

That's why I've put forward a plan to rebalance scarce housing resources to increase investment in proven solutions for those who need it most. The Common Sense Housing Investment Act (H.R. 948) reforms the mortgage interest deduction so that it better serves low- and moderate-income homeowners and reinvests the savings to help more families struggling to pay their rent. In fact, under my plan, 15 million more homeowners who currently do not benefit from the mortgage interest deduction will see a much-needed tax break. More than \$241 billion will be reinvested to make rental homes affordable to people with the greatest needs.

I urge everyone who is moved by the story of families like Asma's and others like hers – and by what you read in this report – to work to expand the supply of affordable housing. I commend NLIHC and its United for Homes campaign for supporting H.R. 948 as part of their efforts to ensure that every family has an affordable place to call home. The legislation would use savings from reforming the mortgage interest deduction to expand proven solutions to ending homelessness and housing poverty, like the national Housing Trust Fund, rental assistance, and other affordable housing investments. We must make sure that scarce resources are targeted to help those most in need of a safe and secure place to call home.

Thank you,  
Keith Ellison

Rep. Keith Ellison (D-MN)

# INTRODUCTION

**N**LIHC's annual report, *Out of Reach*, documents the gap between renters' wages and the cost of rental housing. The report's Housing Wage is the hourly wage a full-time worker must earn to afford a modest and safe rental home without spending more than 30% of his or her income on housing costs. It is based on HUD's Fair Market Rent (FMR), which is an estimate of what a family moving today can expect to pay for a modest rental home in the area. This year's Housing Wage clearly indicates that housing costs are too high for low-wage workers.

**The 2017 national Housing Wage is \$21.21 per hour for a two-bedroom rental home, or more than 2.9 times higher than the federal minimum wage of \$7.25 per hour. The 2017 Housing Wage for a one-bedroom rental home is \$17.14, or 2.4 times higher than the federal minimum wage.** A full-time worker earning the minimum wage needs to work 117 hours per week for all 52 weeks of the year to afford a two-bedroom rental home or 94.5 hours per week for a one-bedroom rental home. While low-wage workers have seen pay increases over the past two years (Economic Policy Institute, 2017; Gould, 2017), they still struggle to find rental homes they can afford.

The other key findings in this year's report are:

- Six of the seven occupations projected to add the greatest number of jobs by 2024 provide a median wage that is not sufficient to afford a modest one-bedroom rental home.
- An extremely low income (ELI) household

whose income is less than the poverty level or 30% of their area's median cannot afford the average cost of a modest one-bedroom rental home in any state.

- Despite a minimum wage higher than the federal level in 29 states, the District of Columbia, and a growing number of local jurisdictions, in no state, metropolitan area, or county can a full-time minimum-wage worker afford a modest two-bedroom rental home. In only 12 counties can a full-time minimum-wage worker afford a modest one-bedroom rental home.

The high cost of rental housing has resulted in more than 11.2 million severely cost-burdened renter households spending more than half of their income on housing (NLIHC, 2017c). Many low income households cannot spend as much as half of their income on housing without sacrificing other basic necessities. More than 20 million renter households live in housing poverty, meaning they cannot afford to meet their other basic needs like food, transportation, medical care, and other goods and services after they pay for their housing (NLIHC, 2017c). While renters across income groups experience challenges with housing affordability in some communities, the difficulties extremely low income households face in finding an affordable home are pervasive and exist in every community. Extremely low income households account for nearly 73% of all severely cost-burdened renters.

While low income renters struggle to afford

# DEFINITIONS

**Affordability** in this report is consistent with the federal standard that no more than 30% of a household's gross income should be spent on rent and utilities. Households paying over 30% of their income are considered cost burdened. Households paying over 50% of their income are considered severely cost burdened.

**Area Median Income (AMI)** is used to determine income eligibility for affordable housing programs. The AMI is set according to family size and varies by region.

**Extremely Low Income (ELI)** refers to earning less than the poverty level or 30% of AMI.

**Housing Wage** is the estimated full-time hourly wage a household must earn to afford a decent rental home at HUD's Fair Market Rent while spending no more than 30% of their income on housing costs.

**Full-time work** is defined as 2,080 hours per year (40 hours each week for 52 weeks). The average employee works roughly 34.4 hours per week, according to the Bureau of Labor Statistics.

**Fair Market Rent (FMR)** is typically the 40th percentile of gross rents for standard rental units. FMRs are determined by HUD on an annual basis, and reflect the cost of shelter and utilities. FMRs are used to determine payment standards for the Housing Choice Voucher program and Section 8 contracts.

**Renter wage** is the estimated mean hourly wage among renters, based on 2015 Bureau of Labor Statistics wage data, adjusted by the ratio of renter household income to the overall median household income reported in the ACS and projected to 2017.

their homes, the largest share of federal housing expenditures benefit higher-income homeowners in the form of deductions from their taxable income. Homeowners are eligible to subtract the interest paid on their mortgage and real estate taxes from their federal taxable income if they itemize their deductions rather than claim the standard deduction. These two deductions combined cost the federal government nearly \$100 billion annually, more than 83% of which benefits homeowners with incomes greater than \$100,000 (Joint Committee on Taxation, 2017). The mortgage interest deduction (MID) alone costs \$65 billion to assist higher income homeowners, most of whom would be stably housed without the government's help.

Tax reform provides us the opportunity to realign federal housing expenditures to better assist households who face the greatest challenges finding decent, safe, and affordable housing. Any savings generated by housing-related tax reforms must be reinvested in affordable rental housing programs for low wage workers and other low income renters. Two modest reforms to the MID phased in over five years – lowering the amount of mortgage eligible for a tax benefit from \$1 million to \$500,000 and converting the deduction to a tax credit – would generate \$241 billion over ten years to invest in affordable housing for those most in need and would provide a tax cut to 25 million low and moderate income homeowners who don't currently itemize their deductions or get as much benefit from the MID (Lu & Toder, 2016). The "Common Sense Housing Investment Act of 2017" (H.R. 948) calls for these reforms.

## **STRONG DEMAND AND THE HIGH COST OF RENTAL HOMES**

The rental housing market continues to experience strong demand. A record 43.3 million households were renters in 2016, representing a 26.5% increase since 2006 (U.S. Census Bureau, 2017b). Meanwhile, the homeownership rate dropped from 68.8% to 63.4%. As a result of the increased demand for rental housing, the rental vacancy rate in the U.S. declined from 9.8% in the

4<sup>th</sup> quarter of 2006 to 6.9% in the 4<sup>th</sup> quarter of 2016 (U.S. Census Bureau, 2017b). The Consumer Price Index (CPI) for the rental cost of a primary residence rose 31.9% over those ten years, which was higher than overall inflation of 19.1% (U.S. Bureau of Labor Statistics, 2017a).

Household income has not kept up with the rising cost of rental housing. From the housing crisis of 2007 to 2015, the median gross rent for a rental home in the U.S. increased by 6%, after adjusting for overall inflation, while the median income for renter households rose by just 1% and median income for all households declined by 4% (U.S. Census Bureau, 2017a).

Demand for rental housing will likely continue to rise. Researchers at the Joint Center for Housing Studies at Harvard predict an additional 4.7 million renter households by 2025 from household growth, even if homeownership rates stabilize (Spader, McCue, & Herbert, 2016). They project far more additional renter households if homeownership continues to decline.

The development of new multifamily housing may be finally catching up with demand, with the number of new starts in 2015 reaching their highest levels since the 1980's (Joint

Center for Housing Studies, 2016). New construction, however, is typically not affordable for low-wage workers and other low income households. The median rent for a new market-rate rental home in an apartment building built in 2015 was \$1,381 per month. In order to afford a rental home at that price without spending more than 30% of his or her income on housing, a full-time worker would need to earn \$26.56 per hour.

NLIHC estimates that the average hourly wage of renters in the U.S. is \$16.38, \$4.83 less than the two-bedroom Housing Wage and lower than the one-bedroom Housing Wage. In many states, the gap between the average renter's wage and the Housing Wage is even higher (Figure 1). In Hawaii, for example, the average renter wage is \$19.56 per hour less than the Housing Wage needed to afford a two-bedroom apartment. In Maryland, the average renter wage is \$11.39 per hour less than the two-bedroom Housing Wage.

“**TAX REFORM PROVIDES US THE OPPORTUNITY TO REALIGN FEDERAL HOUSING EXPENDITURES TO BETTER ASSIST HOUSEHOLDS WHO FACE THE GREATEST CHALLENGES FINDING DECENT, SAFE, AND AFFORDABLE HOUSING.**”

**FIGURE 1: STATES WITH THE LARGEST SHORTFALL BETWEEN AVERAGE RENTER WAGE AND TWO-BEDROOM HOUSING WAGE**

Six of the seven occupations projected by the U.S. Bureau of Labor Statistics to add the greatest number of jobs between 2014 and 2024 provide a median wage that is lower than what a worker needs to afford a modest rental home (Figure 2). The number of personal care aides who assist the elderly or people with disabilities with their daily living activities was projected to grow by more than 450,000, the most of any occupation (U.S. Bureau of Labor Statistics, 2017b). The median wage for a personal care aide is \$10.75 per hour, or \$6.39 per hour less than the one-bedroom Housing Wage and \$10.46 less than the two-

bedroom Housing Wage. The median wage for home health aides, expected to add nearly 350,000 jobs, is \$11.09 per hour, or \$6.05 less than the one-bedroom Housing Wage and \$10.12 less than the two-bedroom Housing Wage. The cost of housing is a challenge for many other occupations as well. Thirteen of the twenty-one occupations projected to add more than 100,000 jobs between 2014 and 2024 provide a median wage that is less than the one-bedroom Housing Wage.

The struggle to find decent rental housing at an affordable cost is most acute among the lowest

income households. On average, extremely low income households whose income is at or below 30% of their area median cannot afford to spend more than \$523 per month on housing (Figure 3). Meanwhile, the national average monthly rent for a modest one-bedroom rental home is \$892. An extremely low income household cannot afford the average rent for a modest one-bedroom apartment in any state. The struggle is even more daunting for the 5.5 million people with disabilities who rely on Supplemental Security Income (SSI). An individual relying on federal SSI in 2017 can afford monthly rent of no more than \$221. While some states

provide additional support to SSI recipients, in no state could an SSI recipient afford the average rent for a modest efficiency or one-bedroom apartment in the private market. In 22 states, the average rent for a modest one-bedroom apartment is more than the entire income of an SSI recipient.

## THE MINIMUM WAGE

Increasing the minimum wage is an important step to raise wages for the lowest paid workers (Gould, 2017), but it will not eliminate their housing affordability challenges. Twenty-nine states, the District of Columbia, and

a growing number of local jurisdictions have minimum wages higher than the federal level. Nonetheless, a full-time worker earning the prevailing minimum wage cannot afford a modest two-bedroom rental home in any state, metropolitan area, or county in the country. A full-time minimum-wage worker can afford a one-bedroom rental home in only 12 counties, not including Puerto Rico. These twelve counties are located in Arizona, Oregon, and Washington State, all of which have a minimum wage higher than the federal level. Local jurisdictions with a minimum wage higher than the prevailing federal or state levels have implemented them to address high costs of living, including housing costs. Therefore, higher local minimum

**FIGURE 2: HOUSING WAGE AND MEDIAN WAGES FOR OCCUPATIONS WITH HIGHEST PROJECTED GROWTH**

Source: NLIHC calculation of Housing Wage; Employment Projections Program, BLS; May 2016 National Occupational Employment and Wage Estimates, Occupational

wages still fall short of the local one-bedroom and two-bedroom Housing Wage (Appendix A).

## INADEQUATE SUPPLY OF AFFORDABLE RENTAL HOMES FOR THE LOWEST INCOME RENTERS

The supply of rental housing has not kept pace with demand over the past decade. The shortage is greatest for those with the lowest incomes. The U.S. has 7.5 million affordable rental homes for the 11.4 million extremely low income renter households. Not all of those affordable rental homes, however, are available to them. In the private market, the poorest renters compete with higher income households for rental homes. Three and half million rental homes affordable to extremely low income households are unavailable to them because they are occupied by households of higher income. As a result, only four million affordable and available rental homes exist for the 11.4 million extremely low income renter households, leaving a shortage of 7.4 million affordable and available rental homes (NLIHC, 2017c).<sup>1</sup> Only 35 affordable and available rental homes exist for every 100 extremely low income renter households.

A shortage of affordable and available rental homes also exists, but less dramatically, for households with income up to 50% and 80% of their area median income. Fifty-five and 93 affordable and available rental homes exist for every 100

<sup>1</sup> Affordable and available homes are affordable to the particular income group and either vacant or occupied by a household of that income group.

**FIGURE 3: RENTS ARE OUT OF REACH FOR MANY RENTERS**

Source: NLIHC calculation of a national weighted-average Fair Market Rent; NLIHC calculation of affordable rent for average renter wage based on Bureau of Labor Statistics (BLS) QCEW, 2015 adjusted to 2017 dollars; and Social Security Administration, 2017.

renter households with income up to 50% of area median income and 80% of area median income, respectively (NLIHC, 2017c).

Absent public subsidy, the private market rarely produces new rental housing affordable to the lowest income households. The rent these households can afford to pay often does not cover the costs of development and operating expenses. The majority of low-cost rental homes in the private market are older homes that have filtered down in quality and price relative to newer units. These low-cost homes, however, are being lost. Landlords in strong housing markets

have an incentive to upgrade these low-cost homes to obtain higher rents. Landlords in weak markets have an incentive to no longer maintain the housing or convert the property to another use, once the rents do not cover the costs of maintaining the housing. From 2003 to 2013, filtering increased the supply of low-cost rental homes by 4.6%, which did not offset the 7.5% of low-cost rental homes in the private market that were permanently lost (Joint Center for Housing Studies, 2016).

The current level of public subsidies is inadequate to meet the housing needs of low income

households. Only one out of four eligible low income households receives housing assistance (Fischer & Sard, 2017). Applicants for assistance face a long wait, if they can even apply. A recent survey of public housing agencies (PHAs) found that 53% of waiting lists for Housing Choice Vouchers were closed to new applicants and the median waiting list had a wait time of 1.5 years (NLIHC, 2016).

Federal funding for housing assistance programs that serve the lowest income households, including Housing Choice Vouchers, Public Housing, Section 8 Project-Based Rental Assistance, Housing for the Elderly, and Housing for Persons with Disabilities, declined by 3.3% between 2010 and 2017. Public Housing received the largest cut of nearly \$1.8 billion. The FY17 federal budget kept funding for housing assistance mostly flat from FY16, with small cuts to Public Housing and Supportive Housing for Persons with Disabilities (NLIHC, 2017a). Even flat funding, however, is a cut given rising rents, particularly in the Housing Choice Voucher and Project-Based Rental Assistance programs.

## ADDRESSING THE SHORTAGE OF AFFORDABLE RENTAL HOMES

NLIHC supports the realignment of federal housing expenditures to meet our most critical housing needs. While millions of renters struggle to afford their rent, higher income homeowners receive a significantly greater share of federal housing expenditures than low income renters, predominantly through the MID. Homeowners are eligible to subtract the interest paid on their mortgage interest from their federal taxable income if they itemize their deductions rather than claim the standard deduction. The MID is a federal tax expenditure of more than \$65 billion per year, 84% (\$54.6 billion) of which goes to households with annual income greater than \$100,000. Nearly 46% goes to households with annual income greater than \$200,000 (Joint Committee on Taxation, 2017). In comparison, HUD's FY17 budget for the rental programs

that assist the nation's lowest income renters is approximately \$40 billion (NLIHC, 2017b).<sup>2</sup>

The NLIHC-led United for Homes (UFH) campaign endorses the "Common Sense Housing Investment Act of 2017" (H.R. 948) reintroduced by Representative Keith Ellison (D-MN). The bill calls for modest reforms to the MID and reinvesting the savings into affordable rental housing solutions. First, the bill reduces the amount of a mortgage eligible for a tax break from \$1 million to \$500,000, which impacts few homeowners. Second, the bill converts the MID to a nonrefundable 15% tax credit, which provides 25 million homeowners who either don't itemize their deductions or get as much benefit

from the MID with a tax cut (Lu & Toder, 2016). These reforms would generate \$241 billion over ten years to invest in the national Housing Trust Fund (HTF), public housing, rental assistance, and other affordable housing solutions.

The national HTF was designed precisely to address the housing challenges of extremely low income renters. At least 90% of HTF dollars must be used for rental housing and at least 75% of the funds for rental housing must benefit extremely low income households; 100% of HTF dollars must benefit extremely low income households while the HTF is capitalized under \$1 billion. The HTF is funded by a small mandatory contribution from Fannie Mae and Freddie Mac, based on the volume of

their business. The HTF received nearly \$174 million in 2016 and will likely receive approximately \$220 million in 2017, but needs much more to meet the housing needs of extremely low income households.

NLIHC endorses the "Ending Homelessness Act of 2017" (H.R. 2076), reintroduced by Representative Maxine Waters (D-CA), which would provide \$13.27 billion in new funding over five years to federal programs to address the shortage of affordable housing and homelessness. The bill includes more than \$1 billion annually in mandatory spending dedicated to the national HTF, \$2.5 billion over

“WHILE MILLIONS OF RENTERS STRUGGLE TO AFFORD THEIR RENT, HIGHER INCOME HOMEOWNERS RECEIVE A SIGNIFICANTLY GREATER SHARE OF FEDERAL HOUSING EXPENDITURES THAN LOW INCOME RENTERS, PREDOMINANTLY THROUGH THE MID.”

<sup>2</sup> These programs include Tenant Based Rental Assistance, Public Housing, Project Based Rental Assistance, Supportive Housing for the Elderly, Supportive Housing for Persons with Disabilities, and Homeless Assistance Grants.

five years for special purpose Housing Choice Vouchers for those who are homeless or at risk of becoming homeless, and \$5 billion over five years to McKinney-Vento Homeless Assistance Grants for new permanent supportive housing.

Millions of renters struggle to afford their homes. We know how to address the problem and have the resources to do so by realigning our federal tax expenditures and adequately funding the housing programs that serve our nation's most vulnerable residents. We lack only the political will to do so.

## THE NUMBERS IN THIS REPORT AND ON-LINE

*Out of Reach* data are available for every state, metropolitan area, and county at [www.nlihc.org/oor](http://www.nlihc.org/oor). We encourage you to visit the site, click on your state, and select “more info” to see an interactive page on which you can choose specific metropolitan areas or counties in your state. The final pages of this report describe where the numbers come from and how to use them, identify the most expensive jurisdictions, and provide state data and rankings.

The Housing Wage varies considerably across the country. The Housing Wage for a modest two-bedroom rental home in the San Francisco metropolitan area, for example, is \$58.04, far higher than the national Housing Wage. On the other end of the price spectrum, the two-bedroom Housing Wage is \$11.46 in some of Georgia's counties. Jurisdictions with a lower-than-average Housing Wage, however, are not immune to a shortage of affordable rental homes. Jurisdictions with a low Housing Wage tend to have less vibrant economies and lower-than-average household incomes, meaning a low

Housing Wage is still out of reach for too many households.

The Housing Wage is based on HUD FMRs, which are the Department's best estimate of what a family moving today can expect to pay for a modest rental home, not what all current renters are paying on average. The FMR is typically the 40<sup>th</sup> percentile of rents that a family can be expected to pay. The FMR is the basis for the rent payment standard for Housing Choice Vouchers and other HUD programs. They are typically applied uniformly within each FMR area, which is either a metropolitan area or nonmetropolitan county.<sup>3</sup> Therefore, the Housing Wage does not reflect the rent variation within a metropolitan area or nonmetropolitan county.

HUD has published Small Area FMRs based on U.S. Postal Service ZIP codes to better reflect small-scale market conditions within metropolitan areas. NLIHC calculated the Housing Wage for each ZIP code to illustrate the variation in the Housing Wage within metropolitan areas. These wages can be found on-line at [www.nlihc.org/oor](http://www.nlihc.org/oor).

Readers are cautioned against comparing statistics in one edition of *Out of Reach* with those in another. Over time, HUD has changed its methodology for calculating FMRs and incomes. Since 2012, HUD has developed FMR estimates using American Community Survey (ACS) data to determine base rents. This methodology can introduce more year-to-year variability. From time to time, an area's FMRs are based on local rent surveys rather than the ACS. Readers should not compare this year's report to previous editions of *Out of Reach* and assume that all differences reflect actual market dynamics. Please consult the appendices and NLIHC research staff for assistance with interpreting changes in the data.

---

3 Exceptions are the 24 metropolitan areas where HUD requires PHAs to use Small Area FMRs.

# HOW TO USE THE NUMBERS

A renter household needs to earn at least **\$21.21** per hour in order to afford a two-bedroom unit at FMR.

For a family earning 100% of AMI, monthly rent of **\$1,743** or less is affordable.

The annual median family income (AMI) in the United States is **\$69,712** (2017).

Renter households represented **36%** of all households in the United States (2011-2015).

There were **42,600,706** renter households in the United States (2011-2015).

The estimated mean (average) renter wage in the United States is **\$16.38** per hour (2017).

FY17 HOUSING WAGE	HOUSING COSTS			AREA MEDIAN INCOME (AMI)				RENTER HOUSEHOLDS				
	Hourly wage needed to afford 2 BR <sup>1</sup> FMR <sup>2</sup>	2 BR FMR	Annual income needed to afford 2 BR FMR	Full-time jobs at minimum wage <sup>3</sup> needed to afford 2 BR FMR	Annual AMI <sup>4</sup>	Monthly rent affordable at AMI <sup>5</sup>	30% of AMI	Monthly rent affordable at 30% of AMI	Renter households	% of total households	Estimated hourly mean renter wage	Monthly rent affordable at mean renter wage
<b>\$21.21</b>	<b>\$1,103</b>	<b>\$44,120</b>	<b>2.9</b>	<b>\$69,712</b>	<b>\$1,743</b>	<b>\$20,914</b>	<b>\$523</b>	<b>42,600,706</b>	<b>36%</b>	<b>\$16.38</b>	<b>\$852</b>	<b>1.3</b>

The FMR for a two-bedroom rental unit in the United States is **\$1,103** (2017).

A renter household needs an annual income of **\$44,120** in order to afford a two-bedroom rental unit at FMR.

A renter household needs **2.9** full-time jobs paying the minimum wage in order to afford a two-bedroom rental unit at FMR.

In the United States, an extremely low income family (30% of AMI) earns **\$20,914** annually.

For a family earning 30% of AMI, monthly rent of **\$523** or less is affordable.

If a household earns the mean renter wage, monthly rent of **\$852** or less is affordable.

A renter household needs **1.3** full-time jobs paying the mean renter wage in order to afford a two-bedroom rental unit at FMR.

- 1: BR = Bedroom.
- 2: FMR = Fiscal Year 2017 Fair Market Rent.
- 3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.
- 4: AMI = Fiscal Year 2017 Area Median Income.
- 5: "Affordable" rents represent the generally accepted standard of spending no more than 30% of gross income on rent and utilities.

# WHERE THE NUMBERS COME FROM

Divide income needed to afford FMR (\$44,120) by 52 (weeks per year) and then by 40 (hours per work week) (\$44,120 / 52 = \$848.46; \$848.46 / 40 = **\$21.21**).

Multiply Annual AMI by .3 to get maximum amount that can be spent on housing for it to be affordable (\$69,712 x .3 = \$20,914). Divide by 12 to obtain monthly amount (\$20,914 / 12 = **\$1,743**).

HUD FY17 estimated median family income based on data from the American Community Survey (ACS). See Appendix B.

Divide number of renter households by total number of households (ACS 2011-2015) (42,600,706 / 118,170,507 = .36). Then multiply by 100 (.36 x 100 = **36%**).

ACS (2011-2015).

Average wage reported by the Bureau of Labor Statistics (BLS) for 2015, adjusted to reflect the income of renter households relative to all households in the United States, and projected to 2017. See Appendix B.

FY17 HOUSING WAGE	HOUSING COSTS			AREA MEDIAN INCOME (AMI)				RENTER HOUSEHOLDS				
	Hourly wage needed to afford 2 BR' FMR <sup>2</sup>	2 BR FMR	Annual income needed to afford 2 BR FMR	Full-time jobs at minimum wage <sup>3</sup> needed to afford 2 BR FMR	Annual AMI <sup>4</sup>	Monthly rent affordable at AMI <sup>5</sup>	30% of AMI	Monthly rent affordable at 30% of AMI	Renter households	% of total households	Estimated hourly mean renter wage	Monthly rent affordable at mean renter wage
<b>\$21.21</b>	<b>\$1,103</b>	<b>\$44,120</b>	<b>2.9</b>	<b>\$69,712</b>	<b>\$1,743</b>	<b>\$20,914</b>	<b>\$523</b>	<b>42,600,706</b>	<b>36%</b>	<b>\$16.38</b>	<b>\$852</b>	<b>1.3</b>

Developed by HUD annually (2017). See Appendix A.

Multiply the FMR by 12 to get yearly rental cost (\$1,103 x 12 = \$13,236). Then divide by .3 to determine the total income needed to afford \$13,236 per year in rent (\$13,236 / .3 = **\$44,120**).

Divide annual income needed to afford the FMR by 52 (weeks per year) (\$44,120 / 52 = \$848.46). Then divide by \$7.25 (the Federal minimum wage) (\$848.46 / \$7.25 = 117 hours). Finally, divide by 40 (hours per work week) (117 / 40 = **2.9 full-time jobs**).

Multiply Annual AMI by .3 (\$69,712 x .3 = **\$20,914**).

Multiply 30% of Annual AMI by .3 to get maximum amount that can be spent on housing for it to be affordable (\$20,914 x .3 = \$6,274). Divide by 12 to obtain monthly amount (\$6,274 / 12 = **\$523**).

Calculate annual income by multiplying mean renter wage by 40 (hours per week) and 52 (weeks per year) (\$16.38 x 40 x 52 = \$34,070). Multiply by .3 to determine maximum amount that can be spent on rent (\$34,070 x .3 = \$10,221). Divide by 12 to obtain monthly amount (\$10,221 / 12 = **\$852**).

Divide income needed to afford the FMR by 52 (weeks per year) (\$44,120 / 52 = \$848.46). Then divide by \$16.38 (The United States' mean renter wage) (\$848.46 / \$16.38 = 52 hours). Finally, divide by 40 (hours per work week) (52 / 40 = **1.3 full-time jobs**).

1: BR = Bedroom.

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income.

5: "Affordable" rents represent the generally accepted standard of spending no more than 30% of gross income on rent and utilities.

## 2017 MOST EXPENSIVE JURISDICTIONS

North Dakota	\$17.52	Skagway Municipality, AK	\$27.19
Colorado	\$17.16	Dunn County, ND	\$27.12

1 Excludes metropolitan counties in New England.

2 HMFA = HUD Metro Fair Market Rent (FMR) Area. This term indicates that a portion of the Office of Management & Budget (OMB) defined core-based statistical area is in the area to which the income limits and FMRs apply. HUD is required by OMB to alter the name of the metropolitan geographic entities it derives from the Core Based Statistical Area (CBSA) when the geography is not the same as that established by the OMB. CBSA is a collective term meaning both metro and micro.

3 MSA = Metropolitan Statistical Area. Geographic entities defined by OMB for use by the federal statistical agencies in collecting, tabulating, and publishing federal statistics. A metro area contains an urban core of 50,000 or more in population.

## 2017 STATES RANKED BY TWO-BEDROOM HOUSING WAGE

States are ranked from most expensive to least expensive.

Rank	State <sup>1</sup>	Housing Wage for Two-Bedroom FMR <sup>2</sup>
1	Hawaii	\$35.20
2	District of Columbia	\$33.58
3	California	\$30.92
4	Maryland	\$28.27
5	New York	\$28.08
6	Massachusetts	\$27.39
7	New Jersey	\$27.31
8	Connecticut	\$24.72
9	Alaska	\$24.16
10	Washington	\$23.64
11	Virginia	\$23.29
12	Colorado	\$21.97
13	Vermont	\$21.90
14	New Hampshire	\$21.71
15	Delaware	\$21.62
16	Illinois	\$20.87
17	Florida	\$20.68
18	Oregon	\$19.78
19	Rhode Island	\$19.49
20	Pennsylvania	\$18.68
21	Minnesota	\$18.60
22	Texas	\$18.38
23	Maine	\$18.05
24	Nevada	\$18.01
25	Arizona	\$17.56
26	Utah	\$17.02

Rank	State <sup>1</sup>	Housing Wage for Two-Bedroom FMR <sup>2</sup>
27	Georgia	\$16.79
28	North Dakota	\$16.36
29	Michigan	\$16.24
30	Louisiana	\$16.16
31	Wisconsin	\$16.11
32	South Carolina	\$15.83
33	Wyoming	\$15.80
34	North Carolina	\$15.79
35	New Mexico	\$15.78
36	Missouri	\$15.67
37	Kansas	\$15.59
38	Tennessee	\$15.34
39	Nebraska	\$15.22
40	Indiana	\$15.17
41	Ohio	\$15.00
42	Montana	\$14.90
43	Mississippi	\$14.84
44	Alabama	\$14.78
45	Oklahoma	\$14.78
46	Idaho	\$14.65
47	Iowa	\$14.57
48	West Virginia	\$14.49
49	South Dakota	\$14.12
50	Kentucky	\$13.95
51	Arkansas	\$13.72
52	Puerto Rico	\$9.68

1 Includes District of Columbia and Puerto Rico.

2 FMR = Fair Market Rent.

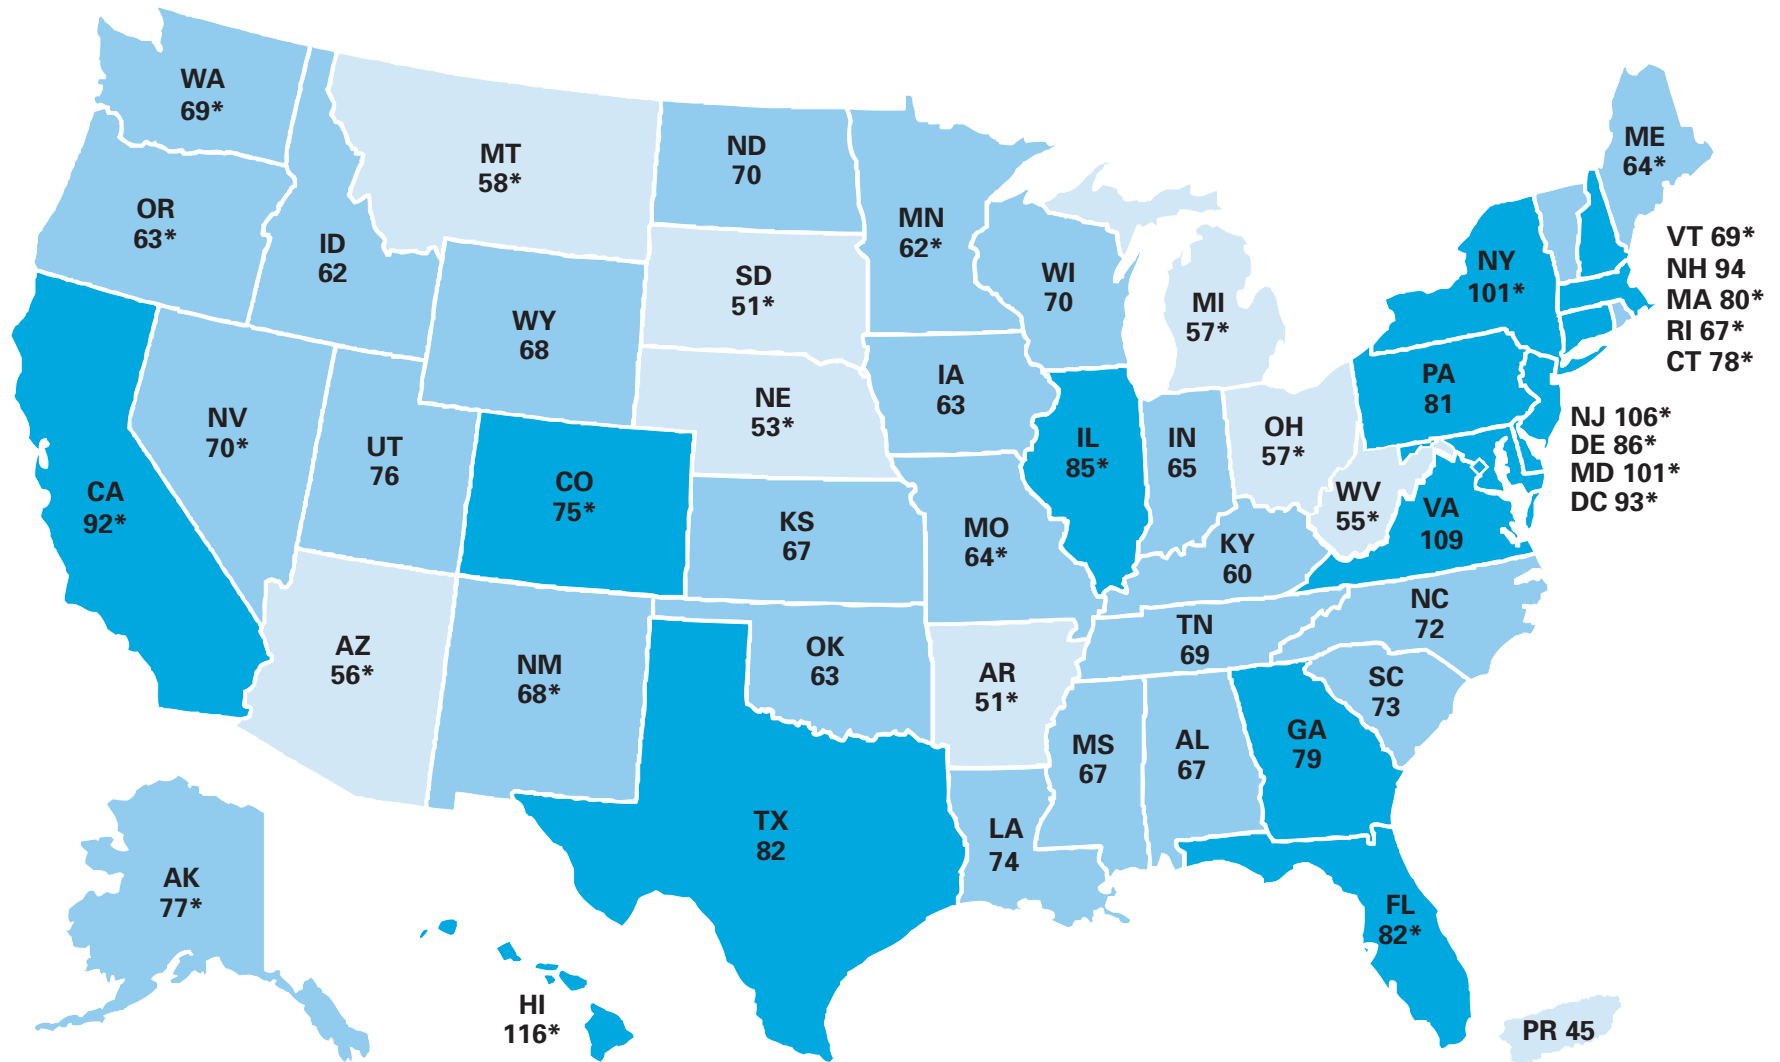

# 2017 TWO-BEDROOM RENTAL UNIT HOUSING WAGE

Represents the hourly wage that a household must earn (working 40 hours a week, 52 weeks a year) in order to afford the Fair Market Rent for a **TWO-BEDROOM RENTAL HOME**, without paying more than 30% of their income.

# 2017 HOURS AT MINIMUM WAGE NEEDED TO AFFORD RENT

In no state can a minimum wage worker afford a **ONE-BEDROOM** rental home at the average Fair Market Rent, working a standard 40-hour work week, without paying more than 30% of their income.

## Hours at minimum wage to afford a one-bedroom rental home

60 hours per week or less
  61 to 78 hours per week
  79 hours per week or more

\*This state's minimum wage exceeds the federal minimum wage

## 2017 HOURS AT MINIMUM-WAGE NEEDED TO AFFORD A ONE-BEDROOM RENTAL HOME (BY COUNTY OR METRO AREA)

In only 12 counties can a full-time worker earning the prevailing federal or state minimum-wage afford a **ONE-BEDROOM RENTAL HOME** at the fair market rent (FMR), without paying more than 30% of their income.\* Only 0.1% of renter households reside in these areas. 76.4% of renter households reside in a county or metro area where a minimum-wage worker must work more than 60 hours per week.

\*Note: This map does not account for the 37 localities, or the urban growth boundary of Portland, OR, with minimum-wages higher than the standard state or federal wage. No local minimum wages are sufficient to afford a one-bedroom unit at FMR with a 40-hour work week.

1: BR = Bedroom.

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See [Appendix B](#)

4: AMI = Fiscal Year 2017 Area Median Income.

5: "Affordable" rents represent the generally accepted standard of spending no more than 30% of gross income on rent and utilities.

# ALABAMA

#44\*

In **Alabama**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$768**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,561** monthly or **\$30,735** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$14.78**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT ALABAMA:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$12.23
2-Bedroom Housing Wage	\$14.78

# ALASKA

#9\*

In **Alaska**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,256**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,187** monthly or **\$50,246** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$24.16**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT ALASKA:

# ARKANSAS

#51\*

In **Arkansas**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$713**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,378** monthly or **\$28,535** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$13.72**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT ARKANSAS:

STATE FACTS	
Minimum Wage	\$8.50
Average Renter Wage	\$12.53
2-Bedroom Housing Wage	\$13.72
Number of Renter Households	385,713
Percent Renters	34%

**65**  
Work Hours Per Week At  
Minimum Wage To Afford a  
2-Bedroom Rental Home (at FMR)

**51**

# CALIFORNIA

#3\*

In **California**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,608**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$5,359** monthly or **\$64,311** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$30.92**  
PER HOUR  
STATE HOUSING  
WAGE

# COLORADO

# #12\*

In **Colorado**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,143**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,809** monthly or **\$45,707** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$21.97**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT COLORADO:

STATE FACTS	
Minimum Wage	\$9.30
Average Renter Wage	\$17.13
2-Bedroom Housing Wage	\$21.97
Number of Renter Households	722,202
Percent Renters	36%

**95**  
Work Hours Per Week At  
Minimum Wage To Afford a  
2-Bedroom Rental Home (at FMR)

**75**  
Work Hours Per Week At  
Minimum Wage To Afford a  
1-Bedroom Rental Home (at FMR)

**2.4**

# CONNECTICUT

#8\*

In **Connecticut**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,285**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,284** monthly or **\$51,408** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$24.72**  
PER HOUR  
STATE HOUSING  
WAGE

\* 50th percentile FMR (See Appendix B). † Wage data not available (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# DISTRICT OF COLUMBIA

#2\*

In **District of Columbia**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,746**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$5,820** monthly or **\$69,840** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$33.58**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT DISTRICT OF COLUMBIA:

STATE FACTS	
Minimum Wage	\$12.50
Average Renter Wage	\$27.20
2-Bedroom Housing Wage	\$33.58
Number of Renter Households	160,640
Percent Renters	59%

**107**  
Work Hours Per Week At  
Minimum Wage To Afford a  
2-Bedroom Rental Home (at FMR)

**93**  
Work Hours Per Week At  
Minimum Wage To Afford a  
1-Bedroom Rental Home (at FMR)

**2.7**  
Number of Full-Time Jobs At  
Minimum Wage To Afford a  
2-Bedroom Rental Home (at FMR)

In **Georgia**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$873**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,910** monthly or **\$34,921** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$16.79**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT GEORGIA:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$15.61

† Wage data not available (See Appendix B).

- 1: BR = Bedroom
- 2: FMR = Fiscal Year 2017 Fair Market Rent.
- 3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.
- 4: AMI = Fiscal Year 2017 Area Median Income
- 5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# HAWAII

#1\*

In **Hawaii**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,830**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$6,101** monthly or **\$73,217** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$35.20**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT HAWAII:

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# ILLINOIS

# #16\*

In **Illinois**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,085**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,617** monthly or **\$43,406** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$20.87**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT ILLINOIS:

# INDIANA

#40\*

In **Indiana**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$789**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,629** monthly or **\$31,550** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$15.17**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT INDIANA:

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

1: BR = Bedroom  
 2: FMR = Fiscal Year 2017 Fair Market Rent.  
 3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.  
 4: AMI = Fiscal Year 2017 Area Median Income  
 5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

In **Iowa**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$758**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,526** monthly or **\$30,315** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$14.57**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT IOWA:

STATE FACTS	
Minimum Wage	<b>\$7.25</b>
Average Renter Wage	<b>\$12.00</b>
2-Bedroom Housing Wage	<b>\$14.57</b>

# KANSAS

# #37\*

In **Kansas**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$811**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,703** monthly or **\$32,434** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$15.59**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT KANSAS:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$13.21

\* 50th percentile FMR (See Appendix B).

1: BR = Bedroom  
 2: FMR = Fiscal Year 2017 Fair Market Rent.  
 3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.  
 4: AMI = Fiscal Year 2017 Area Median Income  
 5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# KENTUCKY

#50\*

In **Kentucky**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$726**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,419** monthly or **\$29,025** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$13.95**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT KENTUCKY:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$12.36
2-Bedroom Housing Wage	\$13.95
Number of Renter Households	559,747
Percent Renters	33%

**77**  
Work Hours Per Week At  
**Minimum Wage** To Afford a  
**2-Bedroom Rental Home** (at FMR)

**60**  
Work Hours Per Week At  
**Minimum Wage** To Afford a  
**1-Bedroom Rental Home** (at FMR)

**1.9**  
Number of Full-Time Jobs At  
**Minimum Wage** To Afford a  
**2-Bedroom Rental Home** (at FMR)

**1.5**  
Number of Full-Time Jobs At  
**Minimum Wage** To Afford a  
**1-Bedroom Rental Home** (at FMR)

# LOUISIANA

#30\*

In **Louisiana**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$841**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,802** monthly or **\$33,621** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$16.16**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT LOUISIANA:

In **Maine**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$939**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,129** monthly or **\$37,551** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$18.05**  
PER HOUR  
STATE HOUSING  
WAGE

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# MARYLAND

#4\*

In **Maryland**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,470**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,900** monthly or **\$58,803** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$28.27**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT MARYLAND:

STATE FACTS	
Minimum Wage	\$9.25
Average Renter Wage	\$16.88
2-Bedroom Housing Wage	\$28.27
Number of Renter Households	718,727
Percent Renters	33%

# MICHIGAN

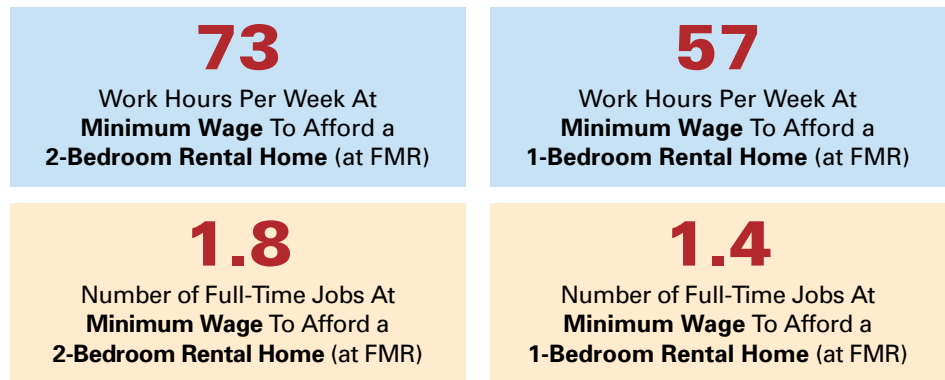

#29\*

In **Michigan**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$844**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,815** monthly or **\$33,775** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$16.24**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT MICHIGAN:

# MINNESOTA

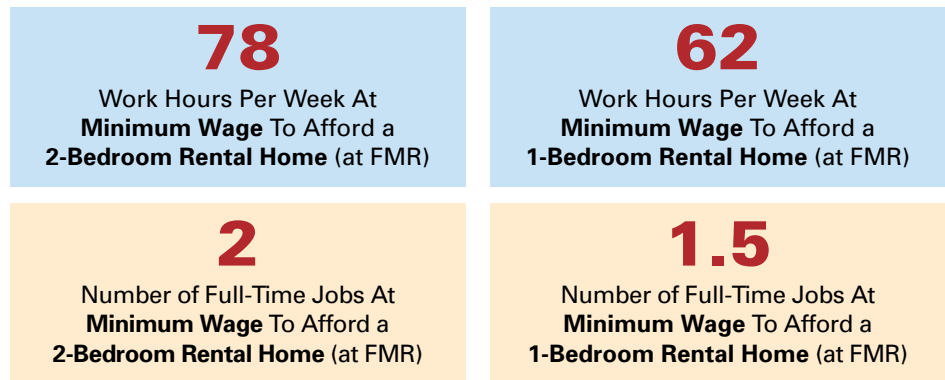

#21\*

In **Minnesota**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$967**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,225** monthly or **\$38,697** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$18.60**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT MINNESOTA:

# MISSISSIPPI

#43\*

In **Mississippi**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$772**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,572** monthly or **\$30,870** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$14.84**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT MISSISSIPPI:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$11.15

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# MISSOURI

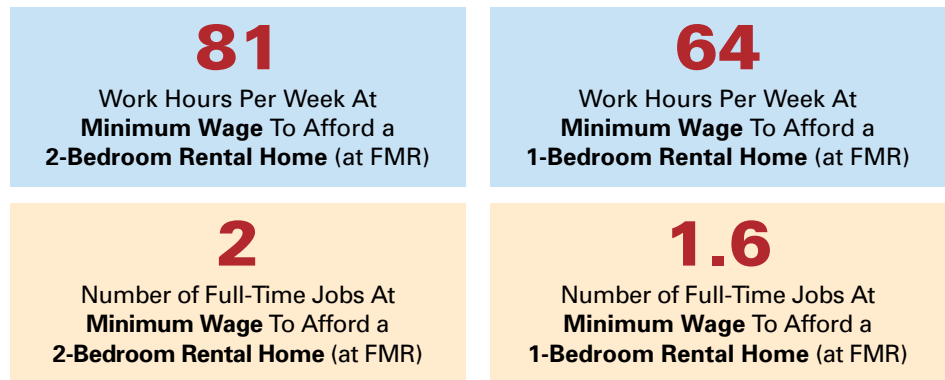

#36\*

In **Missouri**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$815**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,716** monthly or **\$32,588** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$15.67**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT MISSOURI:

Sullivan City (part of Crawford County) is not included due to a lack of sufficient data. \* 50th percentile FMR (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# MONTANA

#42\*

In **Montana**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$775**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,583** monthly or **\$30,993** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$14.90**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT MONTANA:

STATE FACTS	
Minimum Wage	\$8.15
Average Renter Wage	\$11.93
2-Bedroom Housing Wage	\$14.90
Number of Renter Households	134,331
Percent Renters	33%

**73**  
Work Hours Per Week At  
Minimum Wage To Afford a  
2-Bedroom Rental Home (at FMR)

**58**  
Work Hours Per Week At  
Minimum Wage To Afford a  
1-Bedroom Rental Home (at FMR)

**1.8**  
Number of Full-Time Jobs At  
Minimum Wage To Afford a  
2-Bedroom Rental Home (at FMR)

**1.4**  
Number of Full-Time Jobs At  
Minimum Wage To Afford a  
1-Bedroom Rental Home (at FMR)

# NEBRASKA

#39\*

In **Nebraska**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$791**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,638** monthly or **\$31,651** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$15.22**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT NEBRASKA:

STATE FACTS	
Minimum Wage	\$9.00
Average Renter Wage	\$12.29
2-Bedroom Housing Wage	\$15.22
Number of Renter Households	248,665
Percent Renters	34%

**68**  
Work Hours Per Week At  
**Minimum Wage** To Afford a  
**2-Bedroom Rental Home** (at FMR)

**53**  
Work Hours Per Week At  
**Minimum Wage** To Afford a  
**1-Bedroom Rental Home** (at FMR)

# NEVADA

#24\*

In **Nevada**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$937**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,122** monthly or **\$37,462** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$18.01**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT NEVADA:

# NEW JERSEY

#7\*

In **New Jersey**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,420**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,734** monthly or **\$56,810** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$27.31**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT NEW JERSEY:

STATE FACTS	
Minimum Wage	\$8.44
Average Renter Wage	\$17.86

# NEW YORK

#5\*

In **New York**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,460**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,867** monthly or **\$58,409** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$28.08**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT NEW YORK:

STATE FACTS	
Minimum Wage	\$9.70
Average Renter Wage	\$23.98
2-Bedroom Housing Wage	\$28.08
Number of Renter Households	3,367,557
Percent Renters	46%

**116**

# NORTH CAROLINA

#34\*

In **North Carolina**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$821**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,737** monthly or **\$32,843** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$15.79**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT NORTH CAROLINA:

### STATE FACTS

Minimum Wage	\$7.25
Average Renter Wage	\$14.14
2-Bedroom Housing Wage	\$15.79
Number of Renter Households	1,316,509
Percent Renters	35%

\* 50th percentile FMR (See Appendix B). † Wage data not available (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

\* 50th percentile FMR (See Appendix B). † Wage data not available (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# NORTH DAKOTA

#28\*

In **North Dakota**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$851**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,836** monthly or **\$34,028** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$16.36**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT NORTH DAKOTA:

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# OKLAHOMA

#45\*

In **Oklahoma**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$768**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,561** monthly or **\$30,732** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$14.78**  
PER HOUR  
STATE HOUSING  
WAGE

# OREGON

# #18\*

In **Oregon**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,028**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,428** monthly or **\$41,134** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$19.78**  
PER HOUR  
STATE HOUSING  
WAGE

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# PENNSYLVANIA

#20\*

In **Pennsylvania**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$971**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,238** monthly or **\$38,857** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$18.68**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT PENNSYLVANIA:

\* 50th percentile FMR (See Appendix B). † Wage data not available (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# PUERTO RICO

#52\*

In **Puerto Rico**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$504**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$1,678** monthly or **\$20,142** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$9.68**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT PUERTO RICO:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$7.18

# SOUTH DAKOTA

#49\*

In **South Dakota**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$734**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,447** monthly or **\$29,363** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$14.12**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT SOUTH DAKOTA:

STATE FACTS	
Minimum Wage	\$8.65
Average Renter Wage	\$11.49

In **Texas**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$956**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,186** monthly or **\$38,234** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$18.38**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT TEXAS:

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# TOWNS WITHIN VERMONT FMR AREAS

## **BURLINGTON-SOUTH BURLINGTON, VT MSA**

### CHITTENDEN COUNTY

Bolton town, Buels gore, Burlington city, Charlotte town, Colchester town, Essex town, Hinesburg town, Huntington town, Jericho town, Milton town, Richmond town, Shelburne town, South Burlington city, St. George town, Underhill town, Westford town, Williston town, Winooski city

### FRANKLIN COUNTY

Bakersfield town, Berkshire town, Enosburg town, Fairfax town, Fairfield town, Fletcher town, Franklin town, Georgia town, Highgate town, Montgomery town, Richford town, Sheldon town, St. Albans city, St. Albans town, Swanton town

### GRAND ISLE COUNTY

Alburg town, Grand Isle town, Isle La Motte town, North Hero town, South Hero town

# VIRGINIA

#11\*

In **Virginia**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,211**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,036** monthly or **\$48,435** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$23.29**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT VIRGINIA:

STATE FACTS	
Minimum Wage	\$7.25
Average Renter Wage	\$17.38
2-Bedroom Housing Wage	\$23.29

# WASHINGTON

# 10\*

In **Washington**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,229**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$4,098** monthly or **\$49,177** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$23.64**  
PER HOUR  
STATE HOUSING  
WAGE

## FACTS ABOUT WASHINGTON:

\* 50th percentile FMR (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2017 Fair Market Rent.

3: This calculation uses the higher of the state or federal minimum wage. Local minimum wages are not used. See Appendix B.

4: AMI = Fiscal Year 2017 Area Median Income

5: "Affordable" rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# WYOMING

#33\*

In **Wyoming**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$821**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$2,738** monthly or **\$32,855** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$15.80**  
PER HOUR  
STATE HOUSING  
WAGE

Notes: Local minimum-wage as of July 1, 2017. Wage data from the U.C. Berkeley Labor Center's Inventory of U.S. City and County Minimum Wage Ordinances. Housing Wages refer to a jurisdiction's corresponding FMR area.

- a. Minimum wage for firms with more than 55 employees. Minimum wage for firms with fewer employees is \$14.00.
- b. Minimum wage for firms with more than 25 employees. Minimum wage for firms with fewer employees is equivalent to the state minimum wage.
- c. The minimum wage for firms with annual gross revenues less than \$500,000 or 15 or fewer employees is the same as the state minimum-wage.
- d. The minimum wage for non-profits is equivalent to the state minimum wage.
- e. Minimum wage for firms with more than 500 employees. Minimum wage for firms with fewer employees is \$13.00.

# APPENDIX B: DATA NOTES, METHODOLOGIES, AND SOURCES

Appendix B describes the data in *Out of Reach*. Information on how to calculate and interpret the report's numbers can be found in the sections "How to Use the Numbers" and "Where the Numbers Come From", which immediately follow the report's introduction.

## FAIR MARKET RENT AREA DEFINITIONS

HUD determines Fair Market Rents (FMRs) for metropolitan and rural housing markets across the country. In metropolitan areas, HUD uses the Office of Management and Budget's (OMB) metropolitan area boundaries to define FMR areas. Since FMR areas are meant to reflect cohesive housing markets, the OMB boundaries are not always preferable. Also, significant changes to area boundaries can affect current housing assistance recipients. In keeping with OMB's guidance to federal agencies, HUD modifies the OMB boundaries in some instances for purposes of program administration.

HUD's FY06 FMR areas incorporated OMB's 2003 overhaul of metropolitan area boundaries. HUD used OMB's new boundaries, but modified them if a county (or town) to be added to an FMR area under those definitions had rents or incomes in 2000 that deviated more than 5% from the newly defined metropolitan area. HUD (and *Out of Reach*) refers to unmodified OMB-defined areas as Metropolitan Statistical Areas (MSAs) and HUD-modified areas as HUD Metro FMR Areas (HMFAs). OMB's subsequent changes to metropolitan area boundaries through 2009 were incorporated into HUD's subsequent FMR areas.

OMB released new metropolitan area boundaries in February 2013. HUD elected to apply pre-2013 boundaries to FY16 FMR areas except where the post-2013 boundaries resulted in a smaller FMR area. Counties that had been removed from metropolitan areas were treated by HUD as nonmetropolitan counties. Counties that had been added to metropolitan areas were treated by HUD as metropolitan subareas (HMFAs) and given their own FMR if local rent data were statistically reliable. New multi-county metropolitan areas were treated by HUD as individual county metropolitan subareas (HMFAs) if the data were statistically reliable. This is consistent with HUD's objective to maximize tenant choice by allowing FMRs to vary locally. These changes resulted in more metropolitan areas listed in *Out of Reach 2016* than in

previous editions. HUD did not make changes to FMR area boundaries for FY17.

In cases in which an FMR area crosses state lines, *Out of Reach* provides an entry for the area under both states. While the Housing Wage, FMR, and Area Median Income (AMI) values apply to the entire FMR area and will be the same in both states, other data such as the number of renter households, the minimum wage, and renter wages apply only to the portion of the FMR area within that state's borders.

## FAIR MARKET RENTS

The FY17 FMRs are based on five-year 2010-2014 American Community Survey (ACS) data, supplemented with one-year 2014 ACS data. For each FMR area, a base rent at the 40<sup>th</sup> percentile of standard quality rent is determined using the adjusted standard quality two-bedroom gross rent estimates from the five-year ACS data. An estimate is considered reliable if its margin of error is less than 50% of the estimate. If an FMR area does not have a reliable estimate from the five-year 2010-2014 ACS data, then HUD checks whether the area has had a reliable estimate in any of the past three years. If so, the FY17 base rent is the average of inflation-adjusted reliable ACS estimates. If an area has not had a reliable estimate in the past three years, the estimate for the State metropolitan or State nonmetropolitan rent is the base for FY17.

A recent mover adjustment factor is applied to the base rent. This factor is calculated as the percentage change between the five-year 2010-2014 40<sup>th</sup> percentile standard quality two-bedroom gross rent, and the one-year 2014 40<sup>th</sup> percentile recent mover two-bedroom gross rent. For the recent mover adjustment factor, HUD uses the smallest geographic area containing the FMR area where the estimate of gross rent is statistically reliable. HUD does not allow recent mover factors to lower the base rent.

Local rent survey data is used to estimate rents when the local survey estimates are statistically different from the ACS-based rents. For FY17, the ACS is not used as the base rent or recent mover factors in 14 FMR areas. HUD currently does not have funds to conduct local rent surveys, so surveys must be paid for by the local public housing agencies or other interested

parties if they wish for HUD to reevaluate the FMRs.

A local or regional CPI update factor is applied to the ACS base rent to adjust for inflation through 2015.<sup>1</sup> A trend factor is then applied to trend the gross rent forward to FY 2017. HUD trended the final FY17 FMRs forward using a national forecast of expected changes to gross rent from 2015 to FY 2017, the same method as in FY16.<sup>2</sup>

While the *Out of Reach* printed book highlights the two-bedroom FMR, the *Out of Reach* website includes a broader data set covering the zero- to four-bedroom FMRs. The focus on the two-bedroom FMRs reflects HUD methodology. HUD finds that two-bedroom rental units are the most common and the most reliable to survey, so two-bedroom units are utilized as the primary FMR estimate.

HUD applies bedroom-size ratio adjustment factors to the two-bedroom estimates to calculate FMRs for other bedroom-size units. HUD makes additional adjustments for units with three or more bedrooms to increase the likelihood that the largest families, who have the most difficulty in finding units, will be successful in finding eligible program units.

Due to changes in FMR methodology over the years, we do not recommend comparing the current edition of *Out of Reach* with previous ones, particularly editions prior to the use of the American Community Survey (ACS).

HUD publishes the FMRs for each county in a searchable on-line tool at [https://www.huduser.gov/portal/datasets/fmr.html#2017\\_query](https://www.huduser.gov/portal/datasets/fmr.html#2017_query). A PDF or excel file of FMRs is available at [https://www.huduser.gov/portal/datasets/fmr.html#2017\\_data](https://www.huduser.gov/portal/datasets/fmr.html#2017_data).

HUD's Federal Register notices regarding FY17 FMRs are available at [https://www.huduser.gov/portal/datasets/fmr.html#2017\\_data](https://www.huduser.gov/portal/datasets/fmr.html#2017_data).

## 40<sup>TH</sup> AND 50<sup>TH</sup> PERCENTILE FMR DESIGNATION

NLIHC uses FMRs to calculate the housing wage. HUD's regulations at 24 CFR 888.113 required FMRs be set at the 50<sup>th</sup> percentile rent, rather than the 40<sup>th</sup>, for metropolitan areas that contained geographically concentrated voucher recipients. This rule was established to raise the voucher payment standard

---

1 Documentation on the development of the FMR for each county and metropolitan area is available at <http://www.huduser.org/portal/datasets/fmr.html>.

2 Detailed documentation on the trend factor for FY16 is available at [https://www.huduser.gov/portal/datasets/fmr/fmrs/FY2016\\_code/alt\\_trend.odn](https://www.huduser.gov/portal/datasets/fmr/fmrs/FY2016_code/alt_trend.odn).

and expand rental options in higher opportunity locations for housing voucher holders. Once designated, the FMR area retains its 50<sup>th</sup> percentile rent for three years.

HUD is phasing out 50<sup>th</sup> percentile FMRs, as part of its FY16 final rule for Small Area FMRs. For metropolitan areas not required to utilize Small Area FMRs, 50<sup>th</sup> percentile FMRs will revert to 40<sup>th</sup> percentile FMRs at the end of the three year period. For metropolitan areas with 50<sup>th</sup> percentile FMRs and required to utilize Small Area FMRs, Small Area FMRs replace the 50<sup>th</sup> percentile.

For FY17, seventeen FMR areas were initially assigned 50th percentile FMRs. An asterisk (\*) is used to denote these FMR areas in *Out of Reach*. The last page in this appendix lists the FMR areas with 50th percentile FMRs. These will be phased out over the next three years.

## NATIONAL, STATE, AND NON-METRO FAIR MARKET RENTS

The FMRs for the nation, states, and state nonmetropolitan areas in *Out of Reach* are calculated by NLIHC and reflect the weighted average FMR for the counties included in the larger geography. The weight for FMRs is the number of renter households within each county from the five-year 2011-2015 ACS.

## AFFORDABILITY

*Out of Reach* is consistent with federal housing policy in the assumption that no more than 30% of a household's gross income should be consumed by gross housing costs. Spending more than 30% of income on housing is considered "unaffordable."<sup>3</sup>

## AREA MEDIAN INCOME (AMI)

This edition of *Out of Reach* uses HUD's FY17 AMIs. HUD calculates the family AMI for metropolitan areas and nonmetropolitan counties. The Census definition of "family" is two or more persons related by blood, marriage or adoption residing together. This family AMI relates to all families and is not intended to apply to a specific family size.

HUD used the five-year 2010-2014 ACS data to calculate the FY17 AMIs. In

---

3 The Housing and Urban-Rural Recovery Act of 1983 made the 30% "rule of thumb" applicable to rental housing assistance programs.

areas with statistically reliable one-year 2014 ACS data, HUD incorporated the one-year data. HUD's standard for statistically reliable data is a margin of error of less than 50% of the estimate.

The Congressional Budget Office (CBO) projection of the Consumer Price Index (CPI), published in January 2017, was used by HUD to inflate the ACS estimate from 2014 to the mid-point of FY17.

Applying the assumption that no more than 30% of income should be spent on housing costs, *Out of Reach* calculates the maximum affordable rent for households earning the median income and 30% of the median (extremely low income). This is a straight percentage and does not include HUD's adjustments to income limits for federal housing programs.

The median incomes for states and state combined nonmetropolitan areas reported in *Out of Reach* reflect the weighted average of county AMI data weighted by the total number of households from the 2011-2015 ACS.

FY17 family AMI for metropolitan areas and nonmetropolitan counties, the methodology, and HUD's adjustments to subsequent income limits are provided in *FY2017 HUD Income Limits Briefing Material*, available at <https://www.huduser.gov/portal/datasets/il/il17/IncomeLimitsBriefingMaterial-FY17.pdf>.

## PREVAILING MINIMUM WAGE

*Out of Reach* incorporates the minimum wage in effect as of July 1, 2017. According to the U.S. Department of Labor, the District of Columbia and 29 states have a state minimum wage higher than the federal level of \$7.25 per hour. In place of the lower federal rate, *Out of Reach* incorporates the prevailing state minimum wage in these states. Some local municipalities have a minimum wage that is higher than the prevailing federal or state rate, but this local rate is not fully incorporated into *Out of Reach*.

Among the statistics included in *Out of Reach* are the number of hours and subsequent full-time jobs a minimum wage earner must work to afford the FMR. If the reader would like to calculate the same statistics using a different wage such as a higher local minimum wage, a simple formula can be used for the conversion:

$$\frac{[\text{hours or jobs at the published wage}] *}{[\text{published wage}] / [\text{alternative wage}]}$$

For example, one would have to work 113 hours per week to afford the two-bedroom FMR in Los Angeles County, CA, if the county's minimum wage was equivalent to California's rate of \$10.50. However, the same FMR would be affordable with 99 hours of work per week under the higher local minimum wage of \$12.00<sup>4</sup> ( $113 * \$10.50 / \$12.00$ ). For further guidance, see "Where the Numbers Come From" or contact NLIHC research staff.

The Department of Labor provides further information on state minimum wages at [www.dol.gov/whd/minwage/america.htm](http://www.dol.gov/whd/minwage/america.htm).

## AVERAGE RENTER WAGE

Recognizing that the minimum wage reflects the earnings of only the lowest income workers, *Out of Reach* also calculates an estimated mean renter hourly wage. This measure reflects the compensation that a typical renter is likely to receive for an hour of work by dividing average weekly earnings by 40 hours, thus assuming a full-time workweek. Earnings include several non-wage forms of compensation like paid leave, bonuses, tips, and stock options.<sup>5</sup>

The estimated mean renter hourly wage is based on the average weekly earnings of private (non-governmental) employees working in each county.<sup>6</sup> Renter wage information is based on 2015 data reported by the BLS in the Quarterly Census of Employment and Wages. For each county, mean hourly earnings are multiplied by the ratio of median renter household income to median household income from the five-year 2011-2015 ACS to arrive at an estimated average renter wage. In twenty counties nationwide, the median renter household income exceeds the median household income. Nationally, median renter household income was 62.7% of the median household income.

An inflation factor was applied to the estimated mean renter hourly wage to adjust from 2015 to 2017. The inflation factor ( $244.237 \div 236.995$ ) was based on the CBO forecast of the national CPI for FY2017.

4 U.C. Berkeley Labor Center (2017). Inventory of U.S. city and county minimum wage ordinances. Retrieved from <http://laborcenter.berkeley.edu/minimum-wage-living-wage-resources/inventory-of-us-city-and-county-minimum-wage-ordinances/>.

5 Please note this measure is different from median renter household income, which reflects an estimate of what renter *households* are earning today and includes income not earned in relation to employment.

6 Renter wage data for some counties are not provided in *Out of Reach* either because the BLS could not disclose the data for confidentiality reasons or because the number of employees working in the county was insufficient to estimate a reliable wage.

In approximately 10.6% of counties or county equivalents (including Puerto Rico), the renter wage is below the federal or state (where applicable) minimum wage. One explanation is that workers in these counties likely average fewer than 40 hours per week, but the mean renter wage calculation assumes weekly compensation is the product of a full-time work week. For example, mistakenly assuming earnings from 20 hours of work were the product of a full-time workweek would underestimate the actual hourly wage by half, but it would still accurately reflect the true earnings under the assumption of a full-time schedule (see next section).

Wage data from the Quarterly Census of Employment and Wages are available through the Bureau of Labor Statistics at [www.bls.gov/cew/home.htm](http://www.bls.gov/cew/home.htm).

## WORKING HOURS

Calculations of the Housing Wage and of the number of jobs required at the minimum wage or mean renter wage to afford the FMR assume that an individual works 40 hours per week, 52 weeks each year, for a total of 2,080 hours per year. Seasonal employment, unpaid sick leave, temporary lay-offs, job changes, and other leave prevent many individuals from maximizing their earnings throughout the year. According to Current Employment Statistics for April 2017, the average wage earner in the U.S. worked 34.4 hours per week.<sup>7</sup>

Not all employees have the opportunity to translate an hourly wage into full-time, year-round employment. For these workers, the Housing Wage underestimates the actual hourly compensation needed to afford the FMR. Conversely, some households include multiple wage earners. For these households, a home renting at the FMR would be affordable even if each worker earned less than the area's stated Housing Wage, as long as their combined wages exceed the Housing Wage.

## SUPPLEMENTAL SECURITY INCOME (SSI)

*Out of Reach* compares rental housing costs with the rent affordable to individuals receiving Supplemental Security Income (SSI) payments. The national numbers are based on the maximum federal SSI payment for individuals in 2017, which is \$735 per month. *Out of Reach* calculations for states include supplemental payments that benefit all individual SSI recipients in 22 states where the Social Security Administration (SSA) reports the

supplemental payment amount. These amounts are available at <https://secure.ssa.gov/apps10/poms.nsf/lnx/0502302200>.

Supplemental payments provided by other states and the District of Columbia are excluded from *Out of Reach* calculations. For some, these payments are administered by the SSA but are available only to populations with specific disabilities, in specific facilities, or in specific household settings. For the majority, however, the supplements are administered directly by the states, so the data are not readily available if they haven't been reported to the SSA. The only four states that do not supplement federal SSI payments are Arizona, Mississippi, North Dakota, and West Virginia. Residents of Puerto Rico cannot receive federal SSI payments.

Since SSI payments are set at the state level, the published version of *Out of Reach* illustrates the difference between each state's average one-bedroom and two-bedroom FMR and the rent that is affordable for SSI recipients. Readers can calculate this gap for any geography by subtracting the rent affordable to an SSI recipient from the area's FMR.

Information on SSI payments is available from the Social Security Administration at <https://www.ssa.gov/OACT/COLA/SSI.html>.

The Technical Assistance Collaborative, Inc., publishes a biennial report comparing Fair Market Rents with the incomes of SSI recipients. The most recent edition of *Priced Out* can be found at <http://www.tacinc.org/knowledge-resources/priced-out-findings/>.

## ADDITIONAL DATA AVAILABLE ONLINE

The print / PDF version of *Out of Reach* contains limited data in an effort to present the most important information clearly. Additional data can be found online at <http://www.nlihc.org/oor>.

The *Out of Reach* methodology was developed by Cushing N. Dolbeare, founder of the National Low Income Housing Coalition.
