## Final Recommendation

Shabazz – Sizemore: Review of the remediation plan submitted by Betty Shabazz - Sizemore reveals that the school failed to reach 5 of out of the 10 identified goals including Attainment and Growth goals. In addition, the school provided incomplete or sample documentation to evidence comprehensive plan implementation. This, in combination with the fact that the school earned a SY15-16 SQRP rating of Level 2 and a 2 year SQRP average of 2.3, leads to the conclusion that the charter school has failed to implement the plan of remediation.
