#SharksAtShedd

**Shark care at Shedd includes training sessions.**

**What do sharks eat at Shedd?**

Find out during our daily shark chats in Wild Reef. 9:45 | 11:15 | 3:45

**The world is home to > 300 shark species.**

Find 11 of them at Shedd.

**You are probably bigger than most sharks.**

80% of shark species are 6 feet or shorter.

50% are less than 3 feet long.

**You are more likely to be struck by lightning or killed by a tornado than you are to be attacked or killed by a shark.**

**Help protect sharks and ocean ecosystems by choosing sustainable seafood — fish that are caught or farmed in environmentally friendly ways.**

You can visit [www.sheddaquarium.org](http://www.sheddaquarium.org) to learn more and download a Right Bite sustainable seafood wallet guide.

# 24/7

**To breathe, some sharks, like the sandbars and blacktip reef sharks, must swim 24/7 to force water over their gills.**

Other sharks have cheek muscles that pump water through their gills.

**Shedd is a leader in the care and breeding of sharks.**
